Fuel Economy of Light-Duty Vehicles, Phase 2, 2015-09-28 The light duty vehicle fleet is expected to undergo substantial technological changes over the next several decades New powertrain designs alternative fuels advanced materials and significant changes to the vehicle body are being driven by increasingly stringent fuel economy and greenhouse gas emission standards By the end of the next decade cars and light duty trucks will be more fuel efficient weigh less emit less air pollutants have more safety features and will be more expensive to purchase relative to current vehicles Though the gasoline powered spark ignition engine will continue to be the dominant powertrain configuration even through 2030 such vehicles will be equipped with advanced technologies materials electronics and controls and aerodynamics And by 2030 the deployment of alternative methods to propel and fuel vehicles and alternative modes of transportation including autonomous vehicles will be well underway What are these new technologies how will they work and will some technologies be more effective than others Written to inform The United States Department of Transportation s National Highway Traffic Safety Administration NHTSA and Environmental Protection Agency EPA Corporate Average Fuel Economy CAFE and greenhouse gas GHG emission standards this new report from the National Research Council is a technical evaluation of costs benefits and implementation issues of fuel reduction technologies for next generation light duty vehicles Cost Effectiveness and Deployment of Fuel Economy Technologies for Light Duty Vehicles estimates the cost potential efficiency improvements and barriers to commercial deployment of technologies that might be employed from 2020 to 2030 This report describes these promising technologies and makes recommendations for their inclusion on the list of technologies applicable for the 2017 2025 CAFE standards **Science Abstracts** ,1965 *Theory and Empirical Practice in Research on Social and Emotional Skills* Miloš Kankaraš,Filip De Fruyt,Ricardo Primi,2022-09-22 **The Philosopher's Stone for Sustainability** Yoshiki Shimomura,Koji Kimita,2012-09-26 Industrial Product Service Systems IPS2 which is defined as an integrated industrial product and service offering that delivers value in use has expanded rapidly over the last decade IPS2 has allowed us to achieve both high added value and high productivity and has enriched our QOL by improving the performance of products and services We are now struggling with many awkward issues related to sustainability but IPS2 is expected to be the philosopher s stone for solving these issues Following the pattern of conferences held in Cranfield in 2009 Link ping in 2010 and Braunschweig in 2011 the fourth International CIRP Conference on Industrial Product Service Systems held on November 8 9 2012 in Tokyo will cover various aspects of IPS2 Topics planned for this year s conference reflect the latest IPS2 information in both the natural sciences and humanities and include case studies from various industries IPS2 is still a relatively new field so it is important to keep track of the entire context in order to promote more cross sectional cooperation between multimodal fields and disciplines The fourth International CIRP Conference on Industrial Product Service Systems will serve as a vital platform for such collaborations and the discussion of new scientific ideas The Case against Education Bryan Caplan,2018-01-30 Why we need to stop wasting public funds on education Despite being immensely

popular and immensely lucrative education is grossly overrated In this explosive book Bryan Caplan argues that the primary function of education is not to enhance students skill but to certify their intelligence work ethic and conformity in other words to signal the qualities of a good employee Learn why students hunt for easy As and casually forget most of what they learn after the final exam why decades of growing access to education have not resulted in better jobs for the average worker but instead in runaway credential inflation how employers reward workers for costly schooling they rarely if ever use and why cutting education spending is the best remedy Caplan draws on the latest social science to show how the labor market values grades over knowledge and why the more education your rivals have the more you need to impress employers He explains why graduation is our society s top conformity signal and why even the most useless degrees can certify employability He advocates two major policy responses The first is educational austerity Government needs to sharply cut education funding to curb this wasteful rat race The second is more vocational education because practical skills are more socially valuable than teaching students how to outshine their peers Romantic notions about education being good for the soul must yield to careful research and common sense The Case against Education points the way Transforming School Systems Through Assessment, Technology, and Non-Traditional Learning Methods Yünkül, Eyup,Güneş, Ahmet Melih,2024-08-26 In today s rapidly changing education landscape integrating assessment technology and non traditional learning methods is essential for fostering student success Data driven assessments allow educators to tailor their strategies to meet each student s unique needs while advanced technologies enhance accessibility and engagement Non traditional methods promote critical thinking and real world problem solving skills By implementing these innovative approaches education can be transformed for a more inclusive future for all students Transforming School Systems Through Assessment Technology and Non Traditional Learning Methods explores these pivotal changes providing a comprehensive understanding of how they are reshaping school systems globally This book gathers insights research and practical applications that highlight the transformative power of these elements in creating more effective inclusive and engaging learning environments Covering topics such as change management learning through play and teacher leadership this book is an excellent resource for educators school administrators researchers academicians policy makers education consultants technology developers edtech developers graduate students and preservice teachers **Structural Adhesives** R.J. Hussey,Josephine Wilson,2012-12-06 A worldwide directory of commercially available adhesive products for use in a wide range of engineering disciplines Along with product names and suppliers basic property data are tabulated and cross referenced The book is subdivided according to class of adhesive with introductions to each class followed by comparison tables and datasheets for each adhesive The datasheets contain detailed information from product codes to environmental properties and are therefore of interest across a broad readership Standardized data will aid the user in cross comparison between different manufacturers and in easily identifying the required information International Handbook of Research
