### Problem and Solution: Passage

**Directions:** Read the passage below about service dogs. Underline each problem that you find. Circle each solution that you find.

#### Service Dog Heroes

Some people have trouble getting around because of physical challenges. These challenges might mean people use wheelchairs, walkers, or crutches. It can be hard for them to go places safely on their own.

Others have sensory challenges like having trouble hearing or seeing. This can make reading or watching TV tricky. They might also have trouble hearing sounds like alarms and doorbells.

Service dogs can help! These special dogs are trained. They can pick up things, open doors, and even push buttons on elevators. They can do this to help people who have trouble moving around easily. This makes it easier for them to do things on their own.

Guide dogs are also great helpers for people with vision and hearing problems. They are taught to take their owners safely outside and to stop at things that are in the way like trash cans and doors. These dogs let their owners know about sounds like the doorbell, a phone, or a smoke alarm. They do this by touching their owner or making signals that can be seen or heard.

Service dogs and their owners trust and love each other. These dogs are more than just helpers, they become part of the family.

### **Global Perspectives and Practices for Reform-Based Mathematics Teaching** Kartal, Ozgul,Popovic,

Gorjana,Morrissey, Susie,2022-04-22 Reform based mathematics has become a popular topic in the education field as this

teaching emphasizes classroom discourse and instructional goals related to student engagement and an understanding of mathematical reasoning concepts and procedures using instructional practices that build on students informal knowledge of mathematics. It also connects mathematics with other disciplines and the real world and provides opportunities for students to contribute and invent their own methods during problem solving. Further study on the best practices, benefits, and challenges of implementing this teaching into education is required.

*Global Perspectives and Practices for Reform Based Mathematics Teaching* explores international perspectives on diverse reform based practices in teaching and learning mathematics, describes challenges and issues for teachers and teacher educators, promotes reflection and academic discussion at various levels and in various educational systems, and raises questions for the field of mathematics education. Covering a range of topics such as teacher preparation programs and integrated learning spaces, this reference work is ideal for academicians, practitioners, researchers, instructors, educators, and students. *JEBPS Vol 16-N2* Journal of Evidence-Based Practices for Schools, 2018-10-05

*Writing a Legal, Robust and Useful IEP* Annmarie Urso, Dee Berlinghoff, 2025-09-25. This text provides teachers and administrators with an understanding of the legal requirements of the Individualized Education Program (IEP) under law, including clarifications of how much benefit an IEP must provide based on the recent United States Supreme Court's 2017 *Endrew F.* decision on the meaning of a free appropriate public education (FAPE). The book uses a case study and scenario format to clarify these legal constructs. Step by step, the component requirements of the IEP will be explained, and checklists of considerations, references, and exemplars will be provided for each section. Preservice and in-service teachers and administrators will find this book a useful guide and reference for the development of IEPs. *Advances in Education Research*, 1997
