Range Rover Sport

2005-2013 James Taylor, 2019-11-28 When the Range Rover Sport was launched in 2005 it was aimed at a new group of customers who in many cases would never have considered a Land Rover product before. These customers wanted and could afford a luxurious vehicle that was expensive to run but they also wanted a very personalized vehicle that did not have the rather grand and conservative connotations of the full size Range Rover Brasher and more glamorous than its older sibling. The Sport was soon adopted by celebrities and others who expected to be noticed. Range Rover Sport: The Complete Story is the first book devoted specifically to the first generation Range Rover Sport. It tells the story behind the development and launch of the vehicle, it explains the market reaction including contemporary press reviews, provides details of each model with technical specification tables and colour and trip options lists, production figures and VIN identification and dating details, prices and sales figures for the UK, USA and Canada, and finally includes a useful chapter on buying and owning.
