

Assessment 2: Environmental Assessment Report

Due: Sun 24 September 2023, 11:55 pm; Worth 30 %

The aim of this assessment is to conduct an environmental assessment for a local site (Week 7 prac) and to present the findings in a report to the Sustainability Working Group at the City of Ryde Council. The length of the report should be a maximum of 6 pages, including text (max 1500 words), references, figures and tables.

Audience for your report

You are preparing your report for the Sustainability Working Group at Ryde Council (<https://www.ryde.nsw.gov.au/Council/Committees/Working-Groups/Sustainability-Working-Group>). The group's role is to consider matters and inform Council and Council officers of community views and likely impacts regarding:

1. Protection of biodiversity,
2. Protection of Natural Areas, including waterways and habitat corridors, and
3. Promotion and implementation of environmentally sustainable initiatives in the Ryde Council area.

Area investigated

The site that you have chosen to report on is the riparian corridor and adjacent urban areas along Shrimptons Creek between Epping Road and Waterloo Road. This area is under pressure from:

- Increasing large-scale urban development,
- Increasing need for recreation and open space areas for the local community, and
- The need to protect the environmental and social values of the site, maintain connections between remnant patches of vegetation and rehabilitate areas affected by urban degradation, such as Shrimptons Creek.

Your approach and concerns

You have recently undertaken an environmental assessment of the corridor and noted down several issues and impacts.

In particular, you are concerned about the size and scale of all the new developments and the potential impacts that these will have on the Shrimptons Creek Corridor. You are particularly concerned about the issues of:

- Stream health e.g. weeds, pollution, litter/rubbish, flooding, erosion, loss of large trees
- Protection of the Shrimptons Creek Corridor, both as an important local habitat (Green Corridor) and as an important asset for the community and region in terms of the Green Links Project.

Aim of your report

The aim of your report is to outline your views and recommendations with supporting evidence, including evidence from your assessment of the site.

You need to:

1. Make clear how the issues are linked to urban development, and
2. Apply your knowledge of environmental planning to suggest where the Council can proactively reduce the impacts of development on the Shrimptons Creek corridor.
