Baldwin, Vicki L. Crawford, 2019 Reclaiming the Great World

House in the 21st Century Cross Disciplinary Explorations of the Vision of Martin Luther King Jr does just that Established and emerging scholars explore Martin Luther King Jr s global vision and his lasting relevance to a globalized rights culture

The editors further explain that this edited collection looks at King afresh in his own historical context while also refocusing his legacy of ideas and social praxis in broader directions for today and tomorrow Employing King s metaphor of the great world house with major attention to racism poverty and war or what he called the evil triumvirate the focus is on King s appraisal of and approach to the global human struggle in the 1950s and 60s and on the extent to which his social witness and praxis takes on new hues and pertinence not only in the ongoing struggles against racism poverty and economic injustice and violence and human destruction but also in the mounting efforts to eliminate problems such sexism homophobia and religious bigotry and intolerance from the global landscape The conclusion is that King s ideas and models of social protest are not only alive but also growing in vitality and popularity in the 21st century especially as humans worldwide are struggling daily with the lingering antiquated thinking and behavior around race and ethnicity the widening gap between the haves and the have nots the mounting cycles of violence torture and terrorism and the frustrating and growing chasms resulting from religious pluralism and the subordination and marginalization of certain sectors of the human family based on gender and sexuality

Narrating the Slave Trade, Theorizing Community Raphaël Lambert, 2018-12-24 In *Narrating the Slave Trade Theorizing Community* Raphaël Lambert explores the notion of community in conjunction with literary works concerned with the transatlantic slave trade The recent surge of interest in both slave trade and community studies concurs with the return of free market ideology which once justified and facilitated the exponential growth of the slave trade The motif of unbridled capitalism recurs in all the works discussed herein however community whether racial political utopian or conceptual emerges as a fitting frame of reference to reveal unsuspected facets of the relationships between all involved parties and expose the ramifications of the trade across time and space Ultimately this book calls for a complete reevaluation of what it means to live together

The New South Creed Paul M. Gaston,2011-06-01 First published in 1970 The New South Creed has lost none of its usefulness to anyone examining the dream of a New South prosperous powerful racially harmonious that developed in the three decades after the Civil War and the transformation of that dream into widely accepted myths shielding and perpetuating a conservative racist society Many young moderates of the period created a philosophy designed to enrich the region attempting to both restore the power and prestige and to lay the race question to rest In spite of these men and their efforts their dream of a New South joined the Antebellum illusion as a genuine social myth with a controlling power over the way in which their followers in both North and South perceived reality

Up from History Robert Jefferson Norrell,Robert J. Norrell,2011-04-30 Since the 1960s Martin Luther King Jr has personified black leadership with his use of direct action protests against white authority A century ago in the era of Jim Crow Booker T Washington pursued a different strategy to lift his people In this compelling biography Norrell reveals how conditions in the segregated South led Washington to call for a less contentious path to freedom and equality He urged black people to acquire economic independence and to develop the moral character that would ultimately gain them full citizenship Although widely accepted as the most realistic way to integrate blacks into American life during his time Washington s strategy has been disparaged since the 1960s The first full length biography of Booker T in a generation *Up from History* recreates the broad contexts in which Washington worked He struggled against white bigots who hated his economic ambitions for blacks African American intellectuals like W E B Du Bois who resented his huge influence and such inconstant allies as Theodore Roosevelt Norrell details the positive power of Washington s vision one that invoked hope and optimism to overcome past exploitation and present discrimination Indeed his ideas have since inspired peoples across the Third World that there are many ways to struggle for equality and justice *Up from History* reinstates this extraordinary historical figure to the pantheon of black leaders illuminating not only his mission and achievement but also poignantly the man himself **The**

Happy Days Benjamin L. Alpers, 2024-01-12 After the techno futurism of the 1950s and the utopian 1960s vision of a great society the 1970s saw Americans turning to the past as a source for both nostalgic escapism and serious reflection on the nation's history While some popular works like *Grease* presented the relatively recent past as a more innocent time far away from the nation's post Vietnam post Watergate malaise others like *Roots* used America's bicentennial as an occasion for deep soul searching *Happy Days* investigates how 1970s popular culture was obsessed with America's past but often offered radically different interpretations of the same historical events and icons Even the figure of the greaser once an icon of juvenile delinquency was made family friendly by Henry Winkler's Fonzie at the same time that he was being appropriated in more threatening ways by punk and gay subcultures The cultural historian Benjamin Alpers discovers similar levels of ambivalence toward the past in 1970s neo noir films representations of America's founding and neo slave narratives by Alex Haley and Octavia Butler By exploring how Americans used the 1970s to construct divergent representations of their shared history he identifies it as a pivotal moment in the nation's ideological fracturing *Arthur J. Goldberg* David Stebenne, 1996-05-30 This book is the first biography ever written of Arthur J Goldberg the former labor lawyer Secretary of Labor under Kennedy and Supreme Court justice which post he resigned at the request of Lyndon Johnson to become U S Ambassador to the United Nations who played a leading role in American political life from World War II until the end of the 1960s Goldberg who never wrote memoirs himself shared his thoughts about his life and work with Stebenne in a series of conversations which took place occasionally from the fall of 1981 through to Goldberg's death in 1990 He also allowed Stebenne access to his papers including those held under seal in presidential libraries and at the Library of

Congress Based upon these unique sources and written to be accessible to a wide audience Arthur J Goldberg is both the story of a leading American liberal and a history of modern American liberalism *The South and America Since World War II* James Charles Cobb,2011 In this sweeping narrative Cobb covers such diverse topics as Dixiecrats the southern strategy the South's domination of today's GOP immigration the national ascendance of southern culture and music and the roles of women and an increasingly visible gay population in contemporary southern life Beginning with the early stages of the civil rights struggle Cobb discusses how the attack on Pearl Harbor set the stage for the demise of Jim Crow He examines the NAACP's postwar assault on the South's racial system the famous bus boycott in Montgomery the emergence of Rev Martin Luther King in the movement and the dramatic protests and confrontations that finally brought profound racial changes and two party politics to the South But for Birmingham Glenn T. Eskew,2000-11-09 Birmingham served as the stage for some of the most dramatic and important moments in the history of the civil rights struggle In this vivid narrative account Glenn Eskew traces the evolution of nonviolent protest in the city focusing particularly on the sometimes problematic intersection of the local and national movements Eskew describes the changing face of Birmingham's civil rights campaign from the politics of accommodation practiced by the city's black bourgeoisie in the 1950s to local pastor Fred L Shuttlesworth's groundbreaking use of nonviolent direct action to challenge segregation during the late 1950s and early 1960s In 1963 the national movement in the person of Martin Luther King Jr turned to Birmingham The national uproar that followed on Police Commissioner Bull Connor's use of dogs and fire hoses against the demonstrators provided the impetus behind passage of the watershed Civil Rights Act of 1964 Paradoxically though the larger victory won in the streets of Birmingham did little for many of the city's black citizens argues Eskew The cancellation of protest marches before any clear cut gains had been made left Shuttlesworth feeling betrayed even as King claimed a personal victory While African Americans were admitted to the leadership of the city the way power was exercised and for whom remained fundamentally unchanged American Indians and the Rhetoric of Removal and Allotment Jason Edward Black,2015-02-10 Jason Edward Black examines the ways the US government's rhetoric and American Indian responses contributed to the policies of Native US relations throughout the nineteenth century's removal and allotment eras Black shows how these discourses together constructed the perception of the US government and of American Indian communities Such interactions though certainly not equal illustrated the hybrid nature of Native US rhetoric in the nineteenth century Both governmental colonizing discourse and indigenous decolonizing discourse shaped arguments constructions of identity and rhetoric in the colonial relationship American Indians and the Rhetoric of Removal and Allotment demonstrates how American Indians decolonized dominant rhetoric through impeding removal and allotment policies By turning around the US government's narrative and inventing their own tactics American Indian communities helped restyle their own identities as well as the government's During the first third of the twentieth century American Indians lobbied for the successful passage of the Indian Citizenship Act of 1924 and the Indian New Deal of

1934 changing the relationship once again In the end Native communities were granted increased rhetorical power through decolonization though the US government retained an undeniable colonial influence through its territorial management of Natives The Indian Citizenship Act and the Indian New Deal as the conclusion of this book indicates are emblematic of the prevalence of the duality of US citizenship that fused American Indians to the nation yet segregated them on reservations This duality of inclusion and exclusion grew incrementally and persists now as a lasting effect of nineteenth century Native US rhetorical relations Eight Propositions Joe L. Rempson, 2020-11-19 Rempson takes issue with those who lay the plight of African Americans on racism not seeing it today as a major obstacle to black progress Rather he traces the origin back to what he terms the African American Garden of Eden In it W E B Dubois outlasted Booker T Washington and fathered a tradition which Rempson argues has produced a victim identity and an emphasis on the system rather than the self Only black males offer a way out he declares because it is entirely our black males who are keeping us down and curtailing our progress in contrast to black females who are doing OK They are plagued by what Rempson calls the African American Male School Adaptability Crisis AMSAC Their academic performance ranks at the bottom alone below black female students and below white Asian and Hispanic male students In large urban areas their high school dropout rate is 59 percent and nationally they lag behind in college attendance and graduation rates The outcome Rempson argues is dysfunctionality and the existence of hedonistic norms which hinder family and community stability But while black males are the problem Rempson contends it is nevertheless only they who can solve it because research and experience show that it takes males to bring up and change other males Though intended for everyone he therefore writes his book to his fellow advantaged black males and makes a passionate plea for them to step up and with the help of black females and of the nation take the lead As their guide he has formulated eight propositions Arrived at through an examination of impressively extensive data from numerous sources and disciplines they are a marked departure from the customary Most strikingly delicate matters such as those which pertain to intelligence quotient IQ and culture are openly confronted and dealt with But Rempson writes unless confronted we will not solve our problems Nor he continues can we solve them unless we cut the umbilical cord to white America We have no right to expect it to be our savior nor are we justified in perceiving it as our oppressor Forcefully and finely written Rempson s book is a singular and courageous contribution Alone his eight propositions make it a worthy read
