Rotach,Albert A. M. Holtslag,2025-01-20 Ideal and Real Atmospheric Boundary Layers is based on the notion that classical books of Boundary Layer Meteorology largely focus on ideal surface conditions while the actual real circumstances often address situations that are more complex like over heterogeneous land and in urban and mountain areas Ideal and Real Atmospheric Boundary Layers starts by covering the basic physical principles used in atmospheric boundary layer meteorology including atmospheric turbulence observing and modeling atmospheric boundary layers and neutral convective and stable boundary layers over different types of land surfaces The second part of the book describes the applications and extension of these principles for real world circumstances The book will be of interest to researchers and students in atmospheric science climate science and meteorology Covers state of current research into ideal and real boundary layers Includes methods and applications of the principles covered in the book Features highly visual content including infographics to further exemplify principles and applications covered in the text *Human Characteristics* Preben Bertelsen,Henrik Høgh-Olesen,Jan Tønnesvang,2009-01-23 Every once in a while we have to reconsider the perennial questions concerning human nature What are the special human behaviours social practices and psychological structures that make us particularly human The field of evolution psychology and cognitive science is the most expanding inter disciplinary area of this field for the time being

uniting different sciences under the same evolutionary paradigm and keeping them occupied by the same eternal questions stated above Relevant data and theoretical considerations are piling up but an overview is needed To facilitate this a large inter disciplinary conference entitled Human Mind Human Kind was held at Aarhus University Denmark The studies fall into three well defined sections 1 Evolution and Cognition Comparative and Developmental Perspectives 2 Human Sociality Morality and Religiosity 3 Human Sexuality and Mating Strategies Specifying the differences between our own species and the rest of the animal world always provokes debate But these demarcations simply have to be drawn once and again They focus attention and stimulate research exactly because they provoke and challenge other researchers to take up the glove and prove us wrong
