— Rick Thompson of Thompson Coach, Knoxville, TN

The OutBack M-Series inverter/charger is an all-in-one mobile power solution. It incorporates a true sinewave inverter, intelligent battery charger and an AC transfer switch which includes a 30 amp pass through and automatic neutral/ground switching.

All M-Series inverter/chargers produce virtually distortion free AC power for all your mobile electrical needs. Industry leading surge power starts multiple heavy loads simultaneously without the need

to run your generator. Innovative power factor corrected battery charging uses multiple stages to recharge your batteries quickly so your generator runs less. Ultra fast AC transfer switch with battery charger back off circuitry allows you to seamlessly take full advantage of your shore cord.

OutBack's modular design makes expanding your power system as easy as adding an additional inverter/charger. Integrated network communications makes system setup and monitoring easy through a single MATE2M controller. Very quiet operation allows mounting in noise sensitive areas, even under a bunk. Repairs in the field are easy thanks to a simple three circuit board design.

The OutBack M-Series inverter is the superior choice when you need a reliable, powerful and modular true sinewave inverter/charger.
