

## THE MOVEMENT FROM STANDARD TO OPTIONAL

Over 800 four-year colleges and universities have instituted "test score optional" policies in response to the research on standardized tests. There is no significant difference of college GPAs and graduation rates between those that submit standardized test scores and those that choose not to:

|                | High School GPA | College GPA | College Graduation % | SAT  |
|----------------|-----------------|-------------|----------------------|------|
| NON-SUBMITTERS | 3.35            | 2.83        | 63.9%                | 1041 |
| SUBMITTERS     | 3.28            | 2.88        | 64.5%                | 1154 |

Non-submitters earned GPAs only 0.05 lower than submitters.

Non-submitters have graduation rates only 0.6% lower than submitters.

Currently, 571 organizations and 18,955 individuals have signed a National Resolution on High-Stakes Testing. They are calling on policymakers to reduce testing mandates and reexamine public school accountability in order to improve the quality of learning in the classroom and reduce the negative effects on students, teachers, and campuses.
