International Child Law, 2014-06-20 International Child Law examines and discusses the international legal framework and issues relating to children. Analysing both public and private international legal aspects, this cross-disciplinary text promotes an understanding of the ongoing development of child law, children's rights and the protection of the child. Examining the theoretical background to the law and providing a concise and clear overview of the instruments and institutions that protect children internationally, this text then focuses on key themes and issues in child law and children's rights. This new edition has been updated and revised throughout, including expanded material on the UN Convention on the Rights of the Child as well as discussion of recent landmark developments on the law relating to recruiting child soldiers as a result of Lubanga 2012. Diary of an Apprentice Astronaut Samantha Cristoforetti, 2020-08-27 I read a lot of writings by astronauts in my research for Orbital, but this was my go-to. It's written with clarity, generosity, humour, humility and heart. Samantha Harvey: Today I woke up on Earth. And I will fall asleep in space. In space, the sun rises and sets 16 times a day. You fly over every sea, every mountain and desert, every city and every port. The most ordinary things—eating, sleeping, brushing your teeth or cutting your hair—have to be relearned until they become familiar again. This is the story of Samantha Cristoforetti's incredible journey to becoming an astronaut and her journey beyond Earth. Her voyage as an apprentice astronaut began when she was in her early thirties, five years of intense training around the world, from Houston to Japan to the legendary Star City in Russia. Countless hours spent in centrifuges, spaceship simulators and under water for spacewalk practice. Then one day a rocket was waiting for her on the launch pad. And after eight minutes of wild ascent, she was on orbit, crunched up with her two crewmates in a tiny spaceship that took them to the International Space Station. With honesty and warmth, Cristoforetti chronicles the two hundred days she spent on the ISS: the joys and challenges of being in an extraordinary place, from the sublime sight of seeing Earth for the first time to more unusual concerns such as mastering the art of floating. How do you find your bearings when there is no up and down? What is it like to run in weightlessness? And how do you cook in space? This is an enthralling, inspiring and surprisingly down-to-earth story about what it really takes to pursue your dreams.

The Practice of Psychotherapy (Psychology Revivals) Lewis R. Wolberg, 2014-08-01 Freud once humorously remarked that 'Anyone who wants to make a living from the treatment of nervous patients must clearly be able to do something to help them.' It is amazing how frequently this simple precept is ignored and when a patient does not get well, how often the failure is attributed to lack of proper motivation, diminutive ego.
