

Obstacle Course Design

Michael Rajnik

Obstacle Course Design:

Agility Course Design Zach Gulaboff Davis, 2024-10-10 Effective course design is fundamental to the sport of dog agility. Written as a comprehensive resource for competitors, trainers, judges, and aspiring judges alike, *Agility Course Design* approaches the craft of course design through a holistic lens, presenting a roadmap for success across sanctioning organizations and levels. Understanding what makes a course work is critical to all aspects of dog agility. Handlers wishing to better analyze and run courses, trainers looking to create meaningful exercises for their students, and judges of all stripes

Course Design Georg Christoph Bödicker, Susanne Strübel, Werner Deeg, 2018-02-14 The title says it all: *Course Design*. Fascinatingly Logical. In many different ways and with illustrative examples, this book presents how a course must be designed to meet the modern demands of riders and horses. Course layouts specifically drafted for this purpose and extensive picture material provide comprehensive advice on this topic. The three authors dedicate a large portion of this book to the fundamental theoretical knowledge on the design and development of show jumping courses. In doing so, the construction and design of the obstacles, as well as their effect, is examined. Individual obstacles are introduced, the execution of the obstacle approach, tasks, and their degree of difficulty are described. In addition, valuable tips for self-organization for material procurement and for the practical set-up and design are given to riders of all ages and aspiring course designers. The thoughts on the necessary psychological empathy of the course designer also make for an interesting read. After all, not only the organizer but also the sponsors, riders, and the audience have to be kept happy, and as the highest priority, the horse's health must always be kept in mind. The second edition of *Course Design: Fascinatingly Logical* has been completely revised, and text and images have been updated. Next to the old masters of riding, Ludger Beerbaum and Marcus Ehning, both from Germany, the book features the experience of female riders Luciana Diniz (Portugal) and Reed Kessler (USA). A new chapter entitled 'Thoughts on the Work of International Course Designers' focuses on the demands on a course designer who has to respect and implement international rules and regulations. Course maps and pictures of international championships provide the finishing touches to this chapter. In summary: From the early beginnings to modern performance-oriented course design. Practical assistance and fundamental theoretical knowledge for the design of competition and training courses. Psychological skill of those responsible for designing the course. Insights into the work of international course designers. Required reading for all aspiring course designers and jumper riders.

One Hundred and One Fun Warm-up and Cool-down Games John Byl, 2004. 101 Fun Warm Up and Cool Down Games provides the antidote to the age-old warm-up and cool-down routines of jogging and stretching. These games engage students and athletes in fun warm-ups that will prepare them mentally and physically for their activity and cool-downs that will help them recover.
