

Lesson 19

Objective: Multiply by multiples of 10 using the place value chart.

Suggested Lesson Structure

Fluency Practice	(15 minutes)
Concept Development	(20 minutes)
Application Problem	(15 minutes)
Student Debrief	(30 minutes)
Total time	(80 minutes)

NOTES ON TIMING

The Application Problem comes after the Concept Development in this lesson. The 15 minutes allotted for the Application Problem includes 5 minutes for the Application Problem and 10 minutes for the Problem Set.

Fluency Practice (15 minutes)

- Group Counting: 3.OA.1 (4 minutes)
- Multiply with 10: 3.NBT.6 (3 minutes)
- Multiply by Different Units: 3.NBT.3 (4 minutes)
- Exchange Place Value disks: 3.NBT.3 (4 minutes)

Group Counting (4 minutes)

Note: Group counting reviews interpreting multiplication as repeated addition. These counts review the multiplication taught previously in the module. Direct students to count forward and backward, occasionally changing the direction of the count.

- Sixes to 60
- Sevens to 70
- Eights to 80
- Nines to 90

Multiply with 10 (3 minutes)

Note: This fluency activity prepares students for this lesson.

- T: I'll say a multiplication problem. You say the whole equation. 10×1 .
- S: $10 \times 1 = 10$.

Continue with the following possible sequences: 10×2 , 30×2 , 10×5 , and 30×5 .

- T: I'll say a multiple of 10. You say the multiplication fact starting with 10. 30.
- S: $10 \times 2 = 20$.

Continue with the following possible sequences: 40, 45, 50, 75, and 90.

The Origins of the Common Core D. Owens, 2015-01-22 Owens provides a historical analysis of the ideological movements and reform efforts leading to the Common Core State Standards beginning with conservative criticism of public schools in the 1930s and culminating in a convergence of the political right and left in efforts to systemically reform education based on free market principles

Argumentative Writing in a Second Language Alan R. Hirvela, Diane Belcher, 2021-12-13

Argumentative Writing in a Second Language is a collection on teaching argumentative writing offering multiple vantage points drawn from the contributors own teaching and research experiences The value of learning how to compose argumentative texts cannot be overstated and yet very little attention has been allocated to the equally important topic of how argumentation is or can be taught in the L2 context Thus this volume shifts attention to teachers and argumentative writing instruction especially within increasingly common multimodal and digital literacy settings While doing so it provides a comprehensive wide ranging view of the L2 argumentative writing landscape within an instructional lens Part I of the volume is topic oriented and focuses on explorations of important issues and perspectives while Part II features several chapters reporting classroom based studies of a variety of instructional approaches that expand our understanding of how argumentative writing can be taught The book will be of value to pre service and in service teachers in varying instructional contexts as well as teacher educators and L2 writing scholars researchers

Teaching Secondary and Middle School Mathematics Daniel J. Brahier, 2024-01-22 Teaching Secondary and Middle School Mathematics combines the latest developments in research technology and standards

with a vibrant writing style to help teachers prepare for the excitement and challenges of teaching secondary and middle school mathematics. The book explores the mathematics teaching profession by examining the processes of planning teaching and assessing student progress through practical examples and recommendations. Beginning with an examination of what it means to teach and learn mathematics, the reader is led through the essential components of teaching, concluding with an examination of how teachers continue with professional development throughout their careers. Hundreds of citations are used to support the ideas presented in the text, and specific websites and other resources are presented for future study by the reader. Classroom scenarios are presented to engage the reader in thinking through specific challenges that are common in mathematics classrooms. The seventh edition has been updated and expanded with particular emphasis on the latest technology standards and other resources. The reader is introduced to the ways that students think and how to best meet their needs through planning that involves attention to differentiation as well as how to manage a classroom for success. Features include: Following on from the sixth edition, assessment takes a central role in planning and teaching. Unit 3 of 5 addresses the use of summative and formative assessments to inform classroom teaching practices. A new appendix is included that lists websites that can be used in a methods class to view other teachers interacting with students for discussion of effective teaching practices. The feature entitled Links and Resources has been updated in each of the 13 chapters. Five strongly recommended and practical resources are spotlighted at the end of each chapter as an easy reference to some of the most important materials on the topic. Approximately 150 new citations have either replaced or been added to the text to reflect the latest in research materials and resources that support the teaching of mathematics. Significant revisions have been made to Chapter 12, which now includes updated research and practices as well as a discussion on culturally responsive pedagogy. Likewise, Chapter 8 now includes a description of best and high leverage teaching practices, and a discussion in Chapter 11 on alternative high school mathematics electives for students has been added. Chapter 9 on the practical use of classroom technology has again been revised to reflect the latest tools available to classroom teachers, including apps that can be run on handheld personal devices in light of changes in education resulting from the global pandemic. An updated Instructor's Manual features a test bank, sample classroom activities, PowerPoint slide content, chapter summaries, and learning outcomes for each chapter and can be accessed by instructors online at www.routledge.com/9781032472867.

Fostering Meaningful Learning Experiences Through Student Engagement Ktoridou, Despo, Doukanari, Elli, Eteokleous, Nikleia, 2020-10-02. Educators are continuously seeking ways to engage their students in active learning processes and are faced with challenges that include engaging students in learning activities, promoting meaningful learning experiences, and providing effective experiences for every student. Studies that investigate instructors' experiences are limited since more focus is given to students. Future research calls for teachers' innovative contributions in introducing new strategies and teaching approaches to further involve students, increase student attendance in online

sessions and employ a variety of technological tools
