Evolution, Cognition, and the History of Religion: A New Synthesis Anders Klostergaard Petersen, Gilhus Ingvild Sælid, Luther H. Martin, Jeppe Sinding Jensen, Jesper Sørensen, 2018-10-08 Evolution Cognition and the History of Religion A New Synthesis comprises 41 chapters that push for a new way of conducting the study of religion

thereby transforming the discipline into a genuine science of religion The recent resurgence of evolutionary approaches on culture and the increasing acknowledgement in the natural and social sciences of culture s and religion s evolutionary importance calls for a novel epistemological and theoretical framework for studying these two areas The chapters explore how a new scholarly synthesis founded on the triadic space constituted by evolution cognition cultural and ecological environment may develop Different perspectives and themes relating to this overarching topic are taken up with a main focus on either evolution cognition and or the history of religion **Twists, Tilings, and Tessellations** Robert J.

Lang,2017-12-22 **Twists Tilings and Tessellation** describes the underlying principles and mathematics of the broad and exciting field of abstract and mathematical origami most notably the field of origami tessellations It contains folding instructions underlying principles mathematical concepts and many beautiful photos of the latest work in this fast expanding field **Crumbling Infrastructure** United States. Being Neighbours Catharine Anne Wilson,2022-10-28 Throughout history farm families have shared work and equipment with their neighbours to complete labour intensive time sensitive and time consuming tasks They benefitted materially and socially from these voluntary flexible loosely structured networks of reciprocal assistance making neighbourliness a vital but overlooked aspect of agricultural change Being Neighbours takes us into the heart of neighbourhood the set of people near and surrounding the family through an examination of work bees in southern Ontario from 1830 to 1960 The bee was a special event where people gathered to work on a neighbour s farm like bees in a hive for a wide variety of purposes including barn raising logging threshing quilting turkey plucking and apple paring Drawing on the diaries of over one hundred men and women Catharine Wilson takes readers into families daily lives the intricacies of their labour exchange and their workways feasts and hospitality Through the prism of the bee and a close reading of the diaries she uncovers the subtle social politics of mutual dependency the expectations neighbours had of each other and their ways of managing conflict and crisis This book adds to the literature on cooperative work that focuses on evaluating its economic efficiency and complicates histories of capitalism that place communal values at odds with market orientation Beautifully written engaging and richly detailed and illustrated Being Neighbours reveals the visceral textures of rural life Standards and Standardization:

Concepts, Methodologies, Tools, and Applications Management Association, Information Resources,2015-02-28 Effective communication requires a common language a truth that applies to science and mathematics as much as it does to culture and conversation Standards and Standardization Concepts Methodologies Tools and Applications addresses the necessity of a common system of measurement in all technical communications and endeavors in addition to the need for common rules and guidelines for regulating such enterprises This multivolume reference will be of practical and theoretical significance to
