forms that would better serve the needs of the modern nation In the early 1930s folk art began to figure in the debates on social role of art and artists that were waged in the pages of the Chinese press the first major exhibition of folk art was held in Hangzhou and the new print movement claimed the print as a popular artistic medium while for the most part declaring its distance from contemporary folk printmaking practices During the war against Japan from 1937 to 1945 educated artists deployed imagery and styles drawn from folk art in morale boosting propaganda images but worried that this work fell short of true artistic accomplishment and pandering to outmoded tastes The questions raised in interaction with folk art during this pivotal period questions about heritage about the social position of art and the exercise of cultural authority continue to resonate into the present day Musical Times and Singing Class Circular ,1893 **Catalog of Copyright Entries.
