

"Professor Woods heroically rescues real history from the politically correct memory hole. Every American should read this book."

—The Honorable Ron Paul, M.D., U.S. House of Representatives

The Politically Incorrect Guide to **AMERICAN HISTORY**

You think you know American history. But did you know:

- ★ The American "revolutionaries" were actually conservatives
- ★ The Puritans didn't steal Indian lands
- ★ FDR agreed to send a million Russian POWs back to Stalin
- ★ "Landslide Lyndon" Johnson stole his first Senate race
- ★ The War on Poverty made poverty worse
- ★ Hundreds of American liberals had secret ties to the Soviets

Politically Incorrect Guide To American History:

Politically Incorrect Guide to American History Thomas E. Woods, 2004-01-04 The problem in America isn't so much what people don't know the problem is what people think they know that just ain't so Thomas E Woods Most Americans trust that their history professors and high school teachers will give students honest and accurate information The Politically Incorrect Guide to American History makes it quite clear that liberal professors have misinformed our children for generations Professor Thomas E Woods Jr takes on the most controversial moments of American history and exposes how history books are merely a series of clichés drafted by academics who are heavily biased against God democracy patriotism capitalism and most American family values Woods reveals the truth behind many of today's prominent myths MYTH The First Amendment prohibits school prayer MYTH The New Deal created great prosperity MYTH What the Supreme Court says goes From the real American revolutionaries to the reality of labor unions The Politically Incorrect Guide to American History is all you need for the truth about America objective and unvarnished

Politically Incorrect Guide to the Founding Fathers Brion McClanahan, 2009-06-30 The truth revealed and PC myths shattered about the Founding Fathers Tom Brokaw labeled the World War II generation the Greatest Generation but he was wrong That honor belongs to the Founders the men who pledged their lives fortunes and sacred honor for the cause of liberty and independence and who established the United States This was a generation without equal and it deserves to be rescued from the politically correct textbooks teachers and professors who want to dismiss the Founders as a cadre of dead white sexist slave holding males Now a clear sighted conservative historian Dr Brion McClanahan does just that In The Politically Incorrect Guide to the Founding Fathers he profiles Washington Adams Jefferson Madison Franklin and other important Founders traces the key issues of the day and shows how they dealt with them and in the process details the Founders deep faith commitment to the cause of independence impeccable character and visionary political ideals Even better The Politically Incorrect Guide to the Founding Fathers proves that the Founders had a better understanding of the problems we face today than do our own members of Congress McClanahan shows that if you want real and relevant insights into the issues of banking war powers executive authority freedom of the press freedom of speech freedom of religion states rights gun control judicial activism trade and taxes you'd be better served reading the Founders than you would be watching congressional debates on C-SPAN or reading the New York Times The Politically Incorrect Guide to the Founding Fathers is a vital guide to restoring a sane sober Constitutional sense of responsibility to today's public debates

Politically Incorrect Guide to American History Thomas E. Woods, Jr., 2004-12-01 Looks at American history with an irreverent and hard hitting look at the nation's important people and events concluding that the American Revolution was fought by conservatives and the First Amendment accepted state sponsored churches

Politically Incorrect Guide to the Presidents, Part 1 Larry Schweikart, 2017-01-09 A book to challenge the status quo spark a debate and get people talking about the issues and questions we face as a country

Politically

Incorrect Guide to the American Revolution Larry Schweikart, Dave Dougherty, 2017-06-26 The truth about the American Revolution is under attack. Despite what you may have learned in school, it wasn't a rich slaveholder's war fought to maintain white privilege. In fact, the War of Independence wasn't about maintaining any status quo; it was the world's first successful bottom-up revolution by the people, ushering in a new dawn of liberty that history had never seen before. But with left-wingers dominating the teaching of history, where can you go for the true story of the unprecedented events that made the United States the world's greatest nation? Now bestselling historian Larry Schweikart has teamed up with author Dave Dougherty to write the ground-breaking patriotic history you've always wanted to read about the foundation of our unique nation. *The Politically Incorrect Guide to the American Revolution* reveals four key factors that applied only in America, making it impossible to replicate the Revolution anywhere else. Why it matters that the Patriot fighting force was overwhelmingly Scotch-Irish. The key role of Protestantism, which denominations tended to become Patriots and which Tories. How Americans were different from the Europeans and English even at the outset of the Revolution. How the casualties of the deadliest war in American history are routinely underreported. How our Revolution became a model for hundreds of others that all failed. Schweikart and Dougherty take on the left-wing myths starting with the Marxist narrative of the Revolution in Howard Zinn's nearly ubiquitous *A People's History of the United States* and uncover the truth about America's beginning. *The Politically Incorrect Guide to Real American Heroes* Brion McClanahan, 2012-11-13 Profiles heroic figures from the beginning of the United States history to the present whose contributions to society the author asserts have been overshadowed by the actions of those the liberal media holds in high esteem. **Why American History Is Not What They Say** Jeff Rigenbach, 2009 Americans have been warring with each other for more than a century over the contents of the American history textbooks used in the nation's high schools and colleges. Page 4 of cover. **Politically Incorrect Guide to the Constitution** Kevin Gutzman, 2007-06-11 The Constitution of the United States created a representative republic marked by federalism and the separation of powers. Yet numerous federal judges led by the Supreme Court have used the Constitution as a blank check to substitute their own views on hot-button issues such as abortion, capital punishment, and same-sex marriage for perfectly constitutional laws enacted by We the People through our elected representatives. Now *The Politically Incorrect Guide to the Constitution* shows that there is very little relationship between the Constitution as ratified by the thirteen original states more than two centuries ago and the constitutional law imposed upon us since then. Instead of the system of state-level decision makers and elected officials, the Constitution was intended to create judges who have given us a highly centralized system in which bureaucrats and appointed, not elected, officials make most of the important policies. In *The Politically Incorrect Guide to the Constitution*, Professor Kevin Gutzman explains how the Constitution was understood by the founders who wrote it and the people who ratified it. Follows the Supreme Court as it uses the fig leaf of the Constitution to cover its naked usurpation of the rights and powers the Constitution explicitly reserves to the states and to the people. Slid

from the Constitution's republican federal government with its very limited powers to an unrepublican judgeocracy with limitless powers. How the Fourteenth Amendment has been twisted to use the Bill of Rights as a check on state power instead of on federal power as originally intended. The radical inconsistency between constitutional law and the rule of law. Contends that the judges who receive the most attention in history books are celebrated for acting against the Constitution rather than for it. As Professor Gutzman shows, constitutional law is supposed to apply the Constitution's plain meaning to prevent judges, presidents, and congresses from overstepping their authority. If we want to return to the founding fathers' vision of the Republic, if we want the Constitution enforced in the way it was explained to the people at the time of its ratification, then we have to overcome the received wisdom about what constitutional law is. *The Politically Incorrect Guide to the Constitution* is an important step in that direction. *Politically Incorrect Guide to Darwinism and Intelligent Design* Jonathan Wells, 2006-08-21. Darwin is an emperor who has no clothes, but it takes a brave man to say so. Jonathan Wells, a microbiologist with two Ph.D.s from Berkeley and Yale, is that brave man. Most textbooks on evolution are written by Darwinists with an ideological axe to grind. Brave dissidents, qualified scientists who try to teach or write about intelligent design, are silenced and sent to the academic gulag. But fear not: Jonathan Wells is a liberator. He unmasks the truth about Darwinism, why it is wrong, and what the real evidence is. He also supplies a revealing list of Books You're Not Supposed to Read as far as the Darwinists are concerned and puts at your fingertips all the evidence you need to challenge the most closed-minded Darwinist.

Politically Incorrect Guide to Hunting Frank Miniter, 2007-08-21. Why the Left's anti-hunting propaganda is dead wrong. Nothing is more hated and more misunderstood by the trendy Left than hunting. But now, intrepid hunter and pro-hunting activist Frank Miniter sets the record straight. In *The Politically Incorrect Guide to Hunting*, he details the concrete benefits that hunting provides to all of us, even how it helps the environment. Speaking with wildlife biologists, hunters, farmers, anti-hunters, and victims of animal attacks, Miniter explains how banning hunting negatively affects wildlife populations and conservation. Miniter's fearless, politically incorrect take on hunting lays out the facts that liberal environmentalists don't want you to know.
