Gifted Education in Rural Schools Amy Price Azano, Carolyn M. Callahan, 2021-02-27 This text draws on data from a five year longitudinal study focusing on gifted education programs in high poverty rural areas in the US It provides a framework for the use of place based interventions to effectively serve gifted students reduce opportunity gaps and address stereotype threat Recognizing that gifted learners are often underrepresented in rural contexts the text adopts a social justice lens to outline the unique challenges of fostering advanced education in rural school districts Using opportunities to learn and best practices in gifted education to inform interventions and practice the text offers in depth explanation of how place based approaches can be used to identify gifted students and ensure that curricula are designed to respect the setting students and teachers The text is structured into three parts providing the reader with a logical and comprehensive progression through theoretical foundations the practicalities of implementation and the process and outcomes of measuring and validating outcomes Given its unique approach to gifted education programs this book will prove to be an indispensable and timely resource for scholars working to develop gifted education and educational interventions with and for rural schools

Understanding Literacy and Cognition C.K. Leong, B.S. Randhawa, 2012-12-06 What does it mean to be literate What does it mean to be a cognizing individual What is the nature of cognizing These are not new questions They have been treated as philosophical puzzles to be pondered systematically in the hope of some eventual solution They have also been viewed as sets of language games with their own rules to enable the individual to understand the world These age old and significant issues gain renewed meaning with our advances in technology and neurosciences Psychologists and educators would need to be aware of the explicit knowledge needed to prepare their students to be literate individuals These were some of the questions that a small number of psychologists educators and computer scientists attempted to answer when they gathered for the Symposium Literacy and Cognition which was held at the University of Saskatchewan Saskatoon Canada from 29th to 31st October 1987 The occasion also marked the sixtieth anniversary of the College of Education of the University which had as its beginning the Normal School for the Province of Saskatchewan We are grateful to the presenters for their presentations and their written papers and also to our other colleagues from the United States and Sweden for their

contributions to the multi faceted theme of literacy and cognition There are many other people whom we would like to thank These include Dr Sylvia Fedoruk Chancellor of the University and Lieutenant Governor of Saskatchewan for her opening remarks at the Symposium Dr **The Psychology and Education of Gifted Children** Philip E. Vernon, Georgina Adamson, Dorothy F. Vernon, 2013-12-16 Originally published in 1977 this book looks at the problem of educating highly intelligent and gifted children which it felt was of paramount importance to modern society In the 1970s education increasingly focused on average pupils and often made excellent provision for handicapped children the authors felt it all the more important for teachers parents and educationalists generally to be made aware of the special needs of the bright and talented and how they could best be catered for In this book Professor Vernon and his two co authors discuss the provision of special facilities for the education of these children at the time particularly with reference to the UK and Canada The serious losses to society when the gifted and specially talented are ignored or repressed are pointed out and the merits and difficulties of alternative schemes are underlined Detailed consideration is given to the psychological origins and nature of intelligence both genetic and environmental and of creativity and special talents artistic and scientific and also to available tests and other techniques for identifying exceptionally able children The book was particularly intended to help teachers and educational administrators of the time together with the parents of very bright children *Introduction to Gifted Education* Julia Link Roberts, Tracy Ford Inman, Jennifer H.
