come and go Treat both those around you and yourself to the bounty of a modern larder full of delicious offerings

Foodopoly Wenonah Hauter, 2015-04-07 A meticulously researched tour de force on politics big agriculture and the need to go beyond farmers markets to find fixes Publishers Weekly Wenonah Hauter owns an organic family farm that provides healthy vegetables to hundreds of families as part of the Community Supported Agriculture CSA movement Yet as a leading healthy food advocate Hauter believes that the local food movement is not enough to solve America's food crisis and the public health debacle it has created In Foodopoly she takes aim at the real culprit the control of food production by a handful of large corporations backed by political clout that prevents farmers from raising healthy crops and limits the choices people can make in the grocery store Blending history reporting and a deep understanding of farming and food production Foodopoly is a shocking revealing account of the business behind the meat vegetables grains and milk most Americans eat every day including some of our favorite and most respected organic and health conscious brands Hauter also pulls the curtain back from the little understood but vital realm of agricultural policy showing how it has been hijacked by lobbyists driving out independent farmers and food processors in favor of the likes of Cargill Tyson Kraft and ConAgra Foodopoly shows how the impacts ripple far and wide from economic stagnation in rural communities to famines overseas and argues that solving this crisis will require a complete structural shift a change that is about politics not just personal choice

Ultra-Processed People Chris van Tulleken, 2024-05-07 THE 1 INTERNATIONAL BESTSELLER Finalist for the Baillie Gifford Prize for Non fiction An eye opening investigation into the science economics history and production of ultra processed food now with a new Afterword by the author Named a Best Book of the Year by NPR The Economist The Times The New Yorker Smithsonian Daily Mail The Guardian Financial Times and more It's not you it's the food How much of our daily caloric intake comes from ingesting substances that technically speaking do not meet traditional definitions of food Chances are if you're eating something that came wrapped in plastic and contains a funky ingredient you don't have in your kitchen it's most likely almost definitely ultra processed food or UPF More than the principal obstacle to eating right UPF has been linked to metabolic disease depression inflammation anxiety and cancer while the production distribution and disposal of UPF and related products globally is known to cause devastating environmental damage At the same time UPF represents the dominant nigh unavoidable food culture for millions upon millions of eaters Medical doctor and broadcaster Chris van Tulleken has spent his career trying to reframe the conversation around eating right balancing the hard and sometimes shocking facts about what we're putting into our bodies with empathy for the natural desire to keep eating what we like have time for and can afford As he argues in this book we are all participants in an experiment we didn't consent to one to determine how to get us to buy as much ultra processed food as possible It's not as simple as stumbling across the right diet trend finding time to meal plan or avoiding over indulging in sugar fat or carbs or any other culprit Nor is it a matter of individual will It's about learning to live in the third age of eating defined by the overwhelming abundance of ultra processed

eating options and arming yourself with the simple and not so simple facts that will help you make the choices that are right for you
