Research for New Teachers Colin Forster, Rachel Eperjesi, 2017-03-25 Action research is a popular part of many teacher training courses but understanding how to do it well isn't always straightforward Action Research for New Teachers breaks the process down into small steps giving you concise jargon free guidance on all the issues and key considerations that you will need to tackle It focuses on being evidence based encouraging you to produce evidence rich research projects that are methodologically sound and stand up to scrutiny This book takes you through the initial stages of planning and research design engages with the complexities of data collection and gives you advice on analyzing your data and writing up your research project Action Research in Education Sara Efrat Efron, Ruth Ravid, 2019-12-11 Introduction to action research Choosing and learning about your research topic Approaches to action research Developing a plan of action Data collection tools Using assessment data in action research Data analysis and interpretation Writing implementing and sharing the research findings Executive Function and Education Mariëtte Huizinga, Dieter Baeyens, Jacob A. Burack, 2018-09-21 Executive function is an umbrella term for various cognitive processes that are central to goal directed behavior thoughts and emotions These processes are especially important in novel or demanding situations which require a rapid and flexible adjustment of behavior to the changing demands of the environment The development of executive function relies on the maturation of associated brain regions as well as on stimulation in the child's social contexts especially the home and school Over the past decade the term executive function has become a buzzword in the field of education as both researchers and educators underscore the importance of skills like goal setting planning and organizing in academic success Accordingly in initiating this Research Topic and eBook our goal was to provide a forum for state of the art theoretical and empirical work on this that both facilitates communication among researchers from diverse fields and provides a theoretically sound source of information for educators The contributors to this volume who hail from several different countries in Europe and North America have certainly accomplished this goal in their nuanced and cutting edge depictions of the complex links among various executive function components and educational success **The Grieving Child in the Classroom** Sue Trace Lawrence, 2019-11-27 The Grieving Child in the Classroom integrates the latest research on children's bereavement and adapts it for use in the classroom Chapters tackle the neurological cognitive emotional and social effects of childhood grief and demonstrate the ways in which those reactions can manifest in the classroom By recognizing individual differences in coping styles and considering variables such as developmental stage nature of the loss and availability of support teachers and staff can become better equipped to respond to the bereaved child's needs The book incorporates theoretical explanations of grief responses as well as practical suggestions for supporting bereaved children in real world settings Whether the loss affects one child or the entire student body educators can turn to this comprehensive guidebook for ways to support grieving students in their classrooms **The Oxford Textbook of Clinical Research Ethics** Ezekiel J. Emanuel, Christine C. Grady, Robert A. Crouch, Reidar K. Lie, Franklin G. Miller, David D. Wendler, 2011-02 The Oxford

Textbook of Clinical Research Ethics is the first comprehensive and systematic reference on clinical research ethics. Under the editorship of experts from the U.S. National Institutes of Health of the United States, the book's 73 chapters offer a wide-ranging and systematic examination of all aspects of research with human beings. Considering the historical triumphs of research as well as its tragedies, the textbook provides a framework for analyzing the ethical aspects of research studies with human beings. Through both conceptual analysis and systematic reviews of empirical data, the contributors examine issues ranging from scientific validity, fair subject selection, risk/benefit ratio, independent review, and informed consent to focused consideration of international research ethics, conflicts of interests, and other aspects of responsible conduct of research. The editors of *The Oxford Textbook of Clinical Research Ethics* offer a work that critically assesses and advances scholarship in the field of human subjects research. Comprehensive in scope and depth, this book will be a crucial resource for researchers in the medical sciences as well as teachers and students.

How to Write a Master's Thesis Yvonne N. Bui, 2019-07-31. This is the best textbook about writing an M.A. thesis available in the market. Hsin-I Liu, University of the Incarnate Word. The Third Edition of *How to Write a Master's Thesis* is a comprehensive manual on how to plan and write a five-chapter master's thesis and a great resource for graduate students looking for concrete applied guidance on how to successfully complete their master's degrees. While research methods and statistics courses may teach students the basic information on how to conduct research, putting it all together into a single project and document can be a challenge. Author Yvonne Bui demystifies this process by integrating the language learned in prerequisite methods and statistics courses into a step-by-step guide for developing a student's own thesis or project.
