Landforms Salt Cellar

Today is your lucky day! Do you know why? Because you get to create a landforms salt cellar and play it! I know! It's amazing.

You know how to make salt cellars in general, so here are the specifics for this one:

- You will write 8 questions and answers about landforms using the landforms from the Extraordinary List of Lovely Landforms.
- The 8 landforms should all be from **one** of the categories you started the landforms into with your group. Got it? All 8 from one group.
- You will draw one large image and four small images. Your images can be of any landforms you wish, and they **don't** need to match the landforms you choose for your questions and answers.
- Follow the pattern in the picture below. Pay careful attention: the direction of the image and text matter. Follow the orientation as shown in the image, or you will be sad.
- Be sure to write your name on the back of your salt cellar.

www.routledge.com/9780815394471 **Pedagogical Content Knowledge in STEM** Stephen Miles Uzzo, Sherryl Browne Graves, Erin Shay, Marisa Harford, Robert Thompson, 2018-10-25 This volume represents both recent research in pedagogical content knowledge (PCK) in science, technology, engineering, and math (STEM) as well as emerging innovations in how PCK is applied in practice. The notion of research to practice is critical to validating how effectively PCK works within the clinic and how it can be used to improve STEM learning. As the need for more effective educational approaches in STEM grows, the importance of developing, identifying, and validating effective practices and practitioner competencies are needed. This book covers a wide range of topics in PCK in different school levels: middle school, college, teacher training, teacher professional development, and different environments: museums, rural. The contributors believe that vital to successful STEM education practice is recognition that STEM domains require both specialized domain knowledge as well as specialized pedagogical approaches. The authors of this work were chosen because of their extensive fieldwork in PCK research and practice, making this volume valuable to furthering how PCK is used to enlighten the understanding of learning as well as providing practical instruction. This text helps STEM practitioners, researchers, and decision makers further their interest in more effective STEM education practice and raises new questions about STEM learning.
