- **Requests a break.** When completing a non-preferred task, student will exchange a "Break" card to instructor with absence of inappropriate behaviors. Student will complete this skill with 80% independence over 10 consecutive opportunities. If student does not request a break but completes appropriately with task, this is not scored as a data opportunity, but if student completes task with inappropriate behaviors instead of requesting "Break", this is scored as an incorrect trial opportunity.
- **Sequences sensory items** When presented with a visual cue and the verbal cue, "Use your sensory items," student will reach for and sequence up items from the sensory bin on their desk. They will complete this skill successfully on 3 out of 5 consecutive opportunities.
- **Transfers, change, or routine** When presented with the cue, "Something is Different" and a change in schedule (e.g., "Time for Recess/Music today instead of Library"), student will respond appropriately by transitioning to current activity with absence of disruptive behaviors such as screaming or throwing items. They will complete this skill with a minimum of 70% success across 10 consecutive sessions.
