Responsible Business Olaf Dilling,Martin Herberg,Gerd Winter,2008-07-01 With the globalisation of markets the phenomenon of market failure has also been globalised Against the backdrop of the territoriality of nation state jurisdictions and the slow progress of international law based on the principle of sovereignty this poses a serious challenge However while the legal infrastructure of globalised markets has a firm basis in formal national and international law the side effects of economic transactions on public goods such as the environment human health and consumer interests often escape state based regulation Therefore attention is drawn to the potential of self regulation by transnational industry While hypotheses abound which try to grasp this phenomenon in conceptual terms both empirical and legal research is still underdeveloped This volume helps to fill this gap in two ways firstly by reconstructing self regulatory settings such as multinational corporations transnational production networks and industry NGO partnerships in terms of organisation problem solving and legitimation and secondly by linking their empirical findings to formal law by examining how legal concepts are reflected in self regulation how the law builds on self regulatory solutions and how it helps to establish favorable conditions for private governance

Proceedings of the 7th PURPLE MOUNTAIN FORUM on Smart Grid Protection and Control (PMF2022) Yusheng Xue,Yuping Zheng,Antonio Gómez-Expósito,2023-02-28 This book includes original peer reviewed research papers from the 7th PURPLE MOUNTAIN FORUM on Smart Grid Protection and Control PMF2022 held in Nanjing China on August 14 15 2022 The accepted papers cover the following topics 1 Advanced power transmission technology2 AC DC hybrid power grid technology3 Power Internet of Things Technology and Application4 Operation control and protection of smart grid5 Active distribution network technology6 Power electronic technology and application7 New technology of substation automation8 Energy storage technology and application9 Application of new technologies such as artificial intelligence blockchain and big data10 Application of Information and Communication Technology11 Low carbon energy planning and security12 Low carbon operation of the power system13 Low carbon energy comprehensive utilization technology14 Carbon trading and power market15 Carbon emission stream and carbon capture
