Braun, 2016-01-29 Under pressure and support from the federal government states have increasingly turned to indicators based on student test scores to evaluate teachers and schools as well as students themselves The focus thus far has been on

test scores in those subject areas where there is a sequence of consecutive tests such as in mathematics or English language

arts with a focus on grades 4-8 Teachers in these subject areas however constitute less than thirty percent of the teacher

workforce in a district Comparatively little has been written about the measurement of achievement in the other grades and

subjects This volume seeks to remedy this imbalance by focusing on the assessment of student achievement in a broad range

of grade levels and subject areas with particular attention to their use in the evaluation of teachers and schools in all It

addresses traditional end of course tests as well as alternative measures such as portfolios exhibitions and student learning

the various positions and roles that contribute to developing a safe and effective program. It provides insights into the benefits of offering a strength and conditioning program at the high school level and offers advice for the implementation of such a program. Examples are also provided for strength and conditioning related PE curriculums to demonstrate how those types of programs can work and how they connect to the SHAPE America national standards and grade level outcomes. The text is loaded with information that can be practically applied to any high school program. You will learn the variables to consider when designing a resistance or cardiovascular training program and 13 detailed protocols for conducting assessments so you can objectively evaluate movement and performance. Detailed exercise descriptions include beginning position, movement phases, breathing guidelines, modifications and variations, and coaching tips. The descriptions, along with accompanying photos, teach proper technique for 28 common resistance training exercises, 10 bodyweight exercises, 12 anatomical core exercises, 11 static and dynamic stretching exercises, 12 plyometric exercises, 10 speed and agility drills, and 5 cardio machines. Sample warm up sequences and exercise sessions for resistance, plyometric, speed and agility, cardiovascular, and circuit training are also provided, all of which follow the programming guidelines and recommendations for high school student athletes. NSCA's Guide to High School Strength and Conditioning includes the evidence-driven information that will help any high school strength and conditioning professional, including both coaches and teachers, to become the best practitioner possible. This valuable resource is one that you will turn to for many years to come as you build a solid strength and conditioning community for your student athletes.
