Aside from the high quality technical paper presentations, we also held a workshop and clinic manuscript that was carried out before the main track. Aims to strengthen the ability to write scientific publications. Coordination with the steering chairs, Dr. Kadek Suranata, S. Pd, M. Pd, Kons, and the members of the organizing committee is essential for the success of the conference. We sincerely appreciate all the Advisory Boards for the constant support and guidance. It was also a great pleasure to work with such an excellent organizing committee team for their hard work in organizing and supporting the conference. In particular, the Scientific Committee led by Cand. Dr. Robbi Rahim, M. Kom, have completed the peer review process of technical papers and made a high quality technical program. We are also grateful to Students Conference chairs, leading by Ida Ayu Made Diah Paramiswari, for their support and all the authors who submitted their papers to the First ICTES 2018. We strongly believe that ICTES conference provides a good forum for all academicians, researchers, and practitioners to discuss all Educational science and technology aspects that are relevant to issues and challenge for sustainability in the 4th industrial revolution. We also expect that the future ICTES conference will be as successful and stimulating as indicated by the contributions presented in this volume.

Multiple Criteria Decision Making in Supply Chain Management A. Ravi Ravindran, 2017-07-12 Supply chain management decisions are made under the conflicting criteria of maximizing profit and customer responsiveness while minimizing supply chain risk. Multiple Criteria Decision Making in Supply Chain Management provides a comprehensive overview of multi criteria optimization models and methods that can be used in supply chain decision making. Presenting the contributions of internationally known authors, researchers, educators, and practitioners, this new book in the Operations Research Series provides readers with a single source guide to recent developments in this area. The focus of the book is on the design and operation of the supply chain system which involves connecting many production and distribution systems often across wide geographic distances in such a way that the businesses involved can ultimately satisfy the consumer demand as efficiently as possible, resulting in maximum financial returns to those businesses connected to that supply chain system. The book includes several case studies on the design and operation of supply chain networks in manufacturing and healthcare.

International Handbook of Research on Conceptual Change Stella Vosniadou, 2013-07-18

Conceptual change research investigates the processes through which learners substantially revise prior knowledge and acquire new concepts. Tracing its heritage to paradigms and paradigm shifts made famous by Thomas Kuhn, conceptual change research focuses on understanding and explaining learning of the most difficult and counter intuitive concepts. Now in its second edition, the *International Handbook of Research on Conceptual Change* provides a comprehensive review of the conceptual change movement and of the impressive research it has spawned on students' difficulties in learning. In thirty one new and updated chapters organized thematically and introduced by Stella Vosniadou, this volume brings together detailed discussions of key theoretical and methodological issues, the roots of conceptual change research and mechanisms of conceptual change and learner characteristics. Combined with chapters that describe conceptual change research in the fields of physics, astronomy, biology, medicine and health and history, this handbook presents writings on interdisciplinary topics written for researchers and students across fields.
