Callahan, Clare Rigg, Sally Sambrook, 2015-10-19 This book contends that the project of Critical Human Resource Development CHRD is to effect change transformation and that as such critical scholars must expose the injustices and inequities associated with the neoliberal narrative which forms the dominant rationality of current mainstream HRD practice In other words those that would change must first recognise that there is a problem worthy of being transformed It is here that much of the CHRD project has plateaued there is much theorising on dominant ideology hegemony power structures and other artefacts of a critical agenda yet there are comparatively few empirical explorations of the CHRD project that would facilitate practical engagement This book offers a means to help progress CHRD from its current concern with problem recognition to a champion of meaningful change This book offers a series of chapters that provide examples of different approaches to engaging in interventions that allow CHRD professionals to challenge power structures and in turn begin to effect change for organisations and employees alike The chapters are clustered in three distinct approaches to thinking about talking about and doing critical practice thus the sections of the book are titled Reflecting Voicing and Enacting High Impact School Library Spaces Peg L. Sullivan, 2014-12-05 To keep school libraries relevant their physical spaces need to be reinvented to mirror 21st century learning models This book will enable everyone from school librarians and principals to district level administrators architects and interior planners of school library spaces to reconceptualize school libraries School libraries provide invaluable benefits and services but many of today's school administrators parents and students no longer see their value Now most students have their own computing devices and the use of eBooks is on the rise students can gather information anywhere at any time This book offers bold new ways to think about library spaces and suggests how libraries can provide the spaces needed to encourage students to explore learning It also presents librarians with dynamic

ideas and plans that can be used as a springboard for planning with school administrators architects and builders The book identifies opportunities for creating spaces that support instructional models such as guided inquiry examines technology skills needed after graduation shows digital media hubs complementing maker spaces and discusses how incorporating social media spaces into library design can encourage learning The author guides librarians through the process of documenting the district learning goals in order to translate those specific goals into library space plans for an architect or interior designer Readers will discover templates for flexible up to date library designs that serve to not only improve students learning and critical thinking skills but also to emphasize the modern school librarian s role in boosting academic achievement
