Nigerian Pentecostalism and Development Richard Burgess, 2020-04-06 This book examines the contributions both intentional and unintentional of Nigerian Pentecostal churches and NGOs to development studying their development practices broadly in relation to the intersecting spheres of politics economics health education human rights and peacebuilding In sub Saharan Africa Pentecostalism is fast becoming the dominant expression of Christianity but while the growth and civic engagement of these churches has been well documented their role in development has received less attention The Nigerian Pentecostal landscape is one of the most vibrant in Africa Churches are increasingly assuming more prominent roles as they seek to address the social and moral ills of contemporary society often in fierce competition with Islam for dominance in Nigerian public space Some scholars suggest that the combination of an enchanted worldview an emphasis on miracles and prosperity teaching and a preoccupation with evangelism discourages effective political engagement and militates against development However *Nigerian Pentecostalism and Development* argues that there is an emerging movement within contemporary Nigerian Pentecostalism which is becoming increasingly active in development practices This book goes on to explore the increasingly transnational approach that churches take often seeking to build multicultural congregations around the globe for instance in Britain and the United States *Nigerian Pentecostalism and Development* Spirit Power and Transformation will be of considerable interest to scholars and students concerned with the intersection between religion and development and to development practitioners and policy makers working in the region

Cherry, Helen Rose Ebaugh, 2016-04-22 From global missionizing among proselytic faiths to mass migration through religious diasporas religion has traveled from one side of the world and back again It continues to play a prominent role in shaping world politics and has been a vital force in the continued emergence spread and creation of a transnational civil society Exploring how religious roots are shaping organizations that seek to aid people across political and geographic boundaries service movements this book focuses on how religious movements establish structures to assist people with basic human needs such as food clothing shelter education and health Examining a multitude of faith traditions with origins in different parts of the world seven contributing chapters with an introduction and conclusions by the senior author offer a unique discussion of the intersections between religious transnationalism and social movements

Christianity, Sexuality and Citizenship in Africa Adriaan van Klinken, Ebenezer Obadare, 2020-06-04 This book explores the interconnections between Christianity sexuality and citizenship in sub Saharan Africa chronicling the ways in which citizenship in the region has undergone profound changes in recent

decades as a result of growing interaction between Christianity and politics the impact of the HIV epidemic debates about women's reproductive rights and the growing visibility of lesbian gay bisexual and transgender LGBT communities Case studies examine the emergence of Christianity especially in its Pentecostal Charismatic forms as a public religion and how this emergence has meant that Christian actors beliefs and practices have increasingly come to manifest themselves in the public sphere The contributors assess how many political and religious leaders are invested in a popular ideology of the heterosexual family as the basis of nation building and how this defines narratives of nationhood and shapes notions of citizenship Additional case studies focus on the emergence of sexuality as a critical site of citizenship and nationhood in postcolonial Africa and address the difficulties that LGBT communities face in claiming recognition from the state Offering case studies from across sub Saharan Africa and spanning several academic disciplines and critical perspectives this book will be of interest to researchers seeking to understand the complex intersections of religion sexuality politics and citizenship across the region This book was originally published as a special issue of Citizenship Studies The Wiley-Blackwell Companion to African Religions Elias Kifon Bongmba, 2012-03-12 The Wiley Blackwell Companion to African Religions brings together a team of international scholars to create a single volume resource on the religious beliefs and practices of the peoples in Africa Offers broad coverage of issues relating to African religions considering experiences in indigenous Christian and Islamic traditions across the continent Contributors are from a variety of fields ensuring the volume offers multidisciplinary perspectives Explores methodological approaches to religion from anthropological philosophical and historical perspectives Provides insights into the historical developments in African religions as well as contemporary issues such as the development of African initiated churches neo traditional religions and Pentecostalism Discusses important topics at the intersection of culture and religion in Africa including the arts health politics globalization gender relations and the economy The African Diaspora and the Study of Religion T. Transnational Religious Spaces Philip Clart, Adam Jones, 2020-07-06 This volume bringing together work by scholars from Europe East Asia North America and West Africa investigates transnational religious spaces in a comparative manner by juxtaposing East Asian and African examples It highlights flows of ideas actors and organizations out of into or within a given continental space These flows are patterned mainly by colonialism or migration The book also examines cases where the transnational space in question encompasses both East Asia and Africa notably in the development of Japanese new religions in Africa Most of the studies are located in the present a few go back to the late nineteenth century The volume is rounded off by Thomas Tweed's systematic reflections on categories for the study of transnationalism his chapter Flows and Dams critically weighs the metaphorical language we use to think speak and write about transnational religious spaces

Christianity and Controversies over Homosexuality in Contemporary Africa Ezra Chitando, Adriaan van Klinken, 2016-05-12 Issues of homosexuality are the subject of public and political controversy in many African societies today. Frequently these controversies receive widespread attention both locally and globally such as with the Anti Homosexuality Bill in Uganda. In the international media these cases tend to be presented as revealing a deeply rooted homophobia in Africa fuelled by religious and cultural traditions. But so far little energy is expended in understanding these controversies in all their complexity and the critical role religion plays in them. Complementing the companion volume *Public Religion and the Politics of Homosexuality in Africa* this book investigates Christian politics and discourses on homosexuality in sub-Saharan Africa. The contributors present case studies from various African countries from Nigeria to South Africa and from Cameroon to Uganda focusing on Pentecostal Catholic and mainline Protestant churches. They critically examine popular Christian theologies that perpetuate homophobia and discrimination but they also discuss contestations of such discourses and emerging alternative Christian perspectives that contribute to the recognition of sexual diversity, social justice and human rights in contemporary Africa.
