Sculpting Rose English Edition:

Catalog of the Avery Memorial Architectural Library of Columbia University: Rodg - Sculpture I Avery Library, 1968 **The Sculpture of Ruth Asawa, Second Edition** Timothy Anglin Burgard, Daniell Cornell, 2020-07-14 An expanded edition of the definitive book on Ruth Asawa's fascinating life and her lasting contributions to American art. The work of American artist Ruth Asawa (1926-2013) is brought into brilliant focus in this definitive book originally published to accompany the first complete retrospective of Asawa's career organized by the Fine Arts Museums of San Francisco in 2006. This new edition features an expanded collection of essays and a detailed illustrated chronology that explore Asawa's fascinating life and her lasting contributions to American art. Beginning with her earliest works (drawings and paintings created in the 1940s while she was studying at Black Mountain College), this beautiful volume traces Asawa's flourishing career in San Francisco and her trajectory as a pioneering modernist sculptor who is recognized internationally for her innovative wire sculptures, public commissions, and activism on behalf of public arts education. Through her lifelong experimentations with wire, especially its capacity to balance open and closed forms, Asawa invented a powerful vocabulary that contributed a unique perspective to the field of twentieth-century abstract sculpture. Working in a variety of nontraditional media, Asawa performed a series of remarkable metamorphoses leading viewers into a deeper awareness of natural forms by revealing their structural properties. Through her art, Asawa transfigured the commonplace into metaphors for life processes themselves. *The Sculpture of Ruth Asawa* establishes the importance of Asawa's work within a larger cultural context of artists who redefined art as a way of thinking and acting in the world rather than as merely a stylistic practice. This updated edition includes a new introduction and more than fifty new images, as well as original essays that reflect on the impact of American political history on Asawa's artistic vision, her experience with printmaking, and her friendship with photographer Imogen Cunningham. Contributors include Susan Ehrens, Mary Emma Harris, Karin Higa, Jacqueline Hoefer, Emily K. Doman, Jennings Paul, J. Karlstrom, John Kreidler, Susan Stauter, Colleen Terry, and Sally B. Woodbridge. Published in association with the Fine Arts Museums of San Francisco (FAMSF). *"Sculpting Simulacra in Medieval Germany, 1250-1380"* Assaf Pinkus, 2017-07-05 Engaging with the imaginative, nonreligious response to Gothic sculpture in German-speaking lands and tracing high and late medieval notions of the living statue and the simulacrum in religious lay and travel literature, this study explores the subjective and intuitive potential inherent in thirteenth and fourteenth-century sculpture. It addresses a range of works from the oeuvre of the so-called Naumburg Master through Freiburg im Breisgau to the imperial art of Vienna and Prague. As living simulacra, the sculptures offer themselves to the imaginative horizons of their viewers as factual presences that substitute for the real. In perceiving Gothic sculpture as a conscious alternative to the sacred imago, the book offers a new understanding of the function, production, and use of three-dimensional images in late medieval Germany. By blurring the boundaries between viewers and works of art, between the

imaginary and the real the sculptures invite the speculations of their viewers and in this way produce an unstable meaning perpetually mutable and alive The book constitutes the first art historical attempt to theorize the idiosyncratic character of German Gothic sculpture much of which has never been fully documented and provides the first English language survey of the historiography of these works

arts of ritual occasion acted as a locus of artistic experiment for the artist in many respects similar to his use of preparatory models to suggest that Bernini's artistry sprang from the fabric of ritual in both material and cultural terms. From processional floats to court stage sets for the ritual occasions of church and state such ephemeral arts were largely made of wax, clay, papier mâché, wood, stucco and plaster assembled into scenographic ensembles with textiles, canvas and paint. Similarly, Bernini's preparatory models for marble or bronze sculpture were of plaster and clay, even mud and straw or wax and painted wood as plentiful and affordable materials that were readily available for use and reuse as required. This book will be of interest to scholars working in art history and Renaissance studies. Prayers in Stone Brunilde S.

Ridgway, 1999-08-31 The meaning of architectural sculpture is essential to our understanding of ancient Greek culture. The embellishment of buildings was common for the ancient Greeks and often provocative. Some ornamental sculpture was placed where when the building was finished no mortal eye could view it. And unlike much architectural ornamentation of other cultures, Greek sculpture was often integral to the building, not just as decoration and could not be removed without affecting the integrity of the building structure. This book is the first comprehensive treatment of the significance of Greek architectural sculpture. Brunilde Sismondo Ridgway, a world class authority on ancient Greek sculpture, provides a highly informative tour of many dimensions of Greek public buildings, especially temples, tombs and treasuries, in a text that is at once lucid, accessible and authoritative. Ridgway's pragmatism and common sense steer us tactfully and clearly through thickets of uncertainty and scholarly disagreement. She refers to a huge number of monuments and documents, her discussions with copious and up to date bibliographies. This book is sure to be acknowledged at once as the standard treatment of its important topic.
