

Suggested Systems.

Need a marine electronics system but don't know where to start? This section is here to guide you to the creation of your perfect system.

Whether you're fitting out a 17' fishing boat or a 100' motor yacht, Raymarine has the equipment you need: single console solutions or networked systems, with the performance and ease-of-use you expect from Raymarine.

Over the next eight pages, you'll find examples of marine electronics systems, for powerboats and sailboats of various sizes. It's not a hard and fast guide - every boat has its own particular needs - but it's an excellent starting point.

Contact your local dealer for more detailed advice about product specifications and options. You can locate your nearest dealer online at www.raymarine.com

This can be achieved with the flexibility that the Raymarine system gives us, the fact that the data can be used in a single way to any fully networked system - allowing something like a single speed - only once and then through to the engine house, and not vice versa."

Greg Warden - Captain of the 100' Raymarine motor yacht
