As a fully integrated video conferencing system, the Polycom VSX 3000 delivers powerful video and audio performance and can act as a PC display when not in a video call – saving valuable desk space.

The Polycom VSX 3000 addresses the needs of executives by enabling business-quality video conferencing directly from their office, eliminating the need to attend personal video conferences from a large meeting room. The Polycom VSX 3000 helps off-site professionals such as regional sales representatives communicate easily with the home office. Consultants are able to stay in touch with corporate headquarters for training, meetings or face-to-face contact without the investment or space required for a group video conferencing system, or the continuous cost of travel.

The Polycom VSX 3000 offers exceptional video with H.264 video technology, and near CD-quality audio with Polycom Siren 1.4 and Polycom StereoSurround™. PC based content can be added to a VSX 3000 conference call cable-free by using the People+Content™ IP software option. You can also add a document camera or VCR/DVD to display pictures or movie files during a conference. And no matter what kind of content is sent, the conference participants can see both the presenter and the content simultaneously with Polycom Dual Monitor Emulation.

In today's Internet driven world, the ability to conduct real time communication and collaboration has become critical to an organisation's survival. As the market leader in voice, video, data and web solutions, our award-winning conference technology makes it easy for people to interact and maximise productivity – over any network, in numerous environments, anywhere around the globe.
