State During the 20th Century Mordecai Lee,2025-02-05 American government was quite modest at the beginning of the 20th century Then tectonic events like the Great Depression World War II and the Cold War led to the rise of big government

Congress sought to preserve its power over this burgeoning bureaucracy. It created its own management bureau, criminalized agency lobbying, closely monitored presidential management, limited agency PR, and strengthened legislative liaison duties of cabinet departments. These initiatives weren't always successful. In the 21st century, conservatives have challenged this administrative state. They argue bureaucrats have too much power and want Congress and the Supreme Court to reassert control. This book provides the historical context for this controversy. Whether readers approve or disapprove of the rise of American bureaucracy, this book recounts how things got to this point. This book relates to political science, American history, and public administration. It is intended for use as a textbook by researchers and for academic libraries.

Fiscal Year 2001 Budget Authorization Request United States. Congress. House. Committee on Science. Subcommittee on Energy and Environment, 2001

Legislative Branch Appropriations for ... United States. Congress. House. Committee on Appropriations, 2004

Congress of the United States Carol S. Plessner, 2007

This new book focuses on the Congress of the United States, which has evolved continuously since its founding. Although critics abound both in and outside Congress itself, it is most certainly true that the tasks and responsibilities assigned to Congress present a challenge to an organization which is sometimes unwieldy to say the least. Information has become so ubiquitous in the age of the internet that Congress seems to struggle to keep up. Congress is largely run by the permanent staff, which is now in excess of 30,000 people. It is pushed, pulled, and jerked by lobbying groups whose interests are more often than not in opposition to the best interests of the majority of the population.
