Narratives of Hope and Grief in Higher Education Stephanie Anne Shelton, Nicole Sieben, 2020-04-01 This collection weaves together the personal narratives of a group of diverse scholars in academia in order to reflect on the ways that grief and hope matter for those situated within higher education Each chapter explores a unique aspect of grief and loss from experiencing a personal tragedy such as the loss of a loved one to national and international grief such as campus shootings and refugee camp experiences to experiencing racism and microaggressions as a woman of color in academia to the implications of religious differences

severing personal ties as an individual navigates research and academic studies Unlike most resources examining grief this collection pushes beyond notions of sorrow as solely individual and instead situates moments of loss and hurt as ones that matter politically academically professionally and personally The editors and their authors offer pathways forward to academics researchers teachers pedagogues and thinkers who grapple with grief in a variety of forms transforming this book into a critical resource of hope to those in the field of education and others who may feel the effects of an otherwise solitary journey of grief to create an awareness of solidarity and support that some may not realize exists within academic circles

Library of Congress Subject Headings Library of Congress,2011 Club Red Diane P. Koenker,2013-04-24 The Bolsheviks took power in Russia 1917 armed with an ideology centered on the power of the worker From the beginning however Soviet leaders also realized the need for rest and leisure within the new proletarian society and over subsequent decades struggled to reconcile the concept of leisure with the doctrine of communism addressing such fundamental concerns as what the purpose of leisure should be in a workers state and how socialist vacations should differ from those enjoyed by the capitalist bourgeoisie In *Club Red* Diane P Koenker offers a sweeping and insightful history of Soviet vacationing and tourism from the Revolution through perestroika She shows that from the outset the regime insisted that the value of tourism and vacation time was strictly utilitarian Throughout the 1920s and 30s the emphasis was on providing the workers access to the repair shops of the nation s sanatoria or to the invigorating journeys by foot bicycle skis or horseback that were the stuff of proletarian tourism Both the sedentary vacation and tourism were part of the regime s effort to transform the poor and often illiterate citizenry into new Soviet men and women Koenker emphasizes a distinctive blend of purpose and pleasure in Soviet vacation policy and practice and explores a fundamental paradox a state committed to the idea of the collective found

itself promoting a vacation policy that increasingly encouraged and then had to respond to individual autonomy and selfhood. The history of Soviet tourism and vacations tells a story of freely chosen mobility that was enabled and subsidized by the state. While Koenker focuses primarily on Soviet domestic vacation travel, she also notes the decisive impact of travel abroad, mostly to other socialist countries, which shaped new worldviews, created new consumer desires, and transformed Soviet vacation practices.
