Cryopreservation in Assisted Reproduction Zsolt Peter Nagy,Alex C. Varghese,Ashok Agarwal,2024-07-15

Cryopreservation of oocytes sperm and ovarian and testicular tissues as well as embryos is one of the most critical
procedures to preserve the reproductive capacity of individuals It is an indispensable part of assisted reproductive
technologies as nearly all IVF clinics around the world have embraced the freeze all embryo strategy with no fresh embryo
transfers Advanced platforms such as automation and artificial intelligence are making their way into all aspects of assisted
reproductive technologies including reproductive tissue banking process and storage At the same time lax regulations and
lack of training combined with rapid demands of IVF services have resulted in a climate of frequent disaster and catastrophic
incidents from the cryo labs that store thousands of patients embryos for years With the onset of malpractice lawsuits against
the clinics and awards of large compensation to the patients regulations are getting stricter in this arena to safeguard the
integrity of storage systems and industry leaders are developing advanced devices and alarm systems to remotely monitor
storage systems exploring the power of internet AI and automation Therefore there is an urgent need for a comprehensive
text in this field based on the introduction of such a wide array of advanced devices newer technologies regulatory
frameworks risks and disaster management options With contributions from top internationally recognized scientists and
clinicians with expertise in cryopreservation and reproductive technology this book provides a comprehensive overview of
the basics of cryobiological processes and a technically detailed presentation on all aspects of cryopreservation of
reproductive cells and tissues It presents the current well established procedures as well as novel techniques with the latest
innovations described in detail Bringing together the latest information with key thought leaders in the field
