

SETUP

1

To connect your unit, insert the USB cable through the bottom of the back of it into the socket. Then attach the front by inserting the stand legs into the holes on the underside of the base unit.

2

Connect USB connector to a free USB port on your computer. A USB hub can be used but ensure that it can supply sufficient power (500 mA) to charge the device.

Alternatively, the optional charger included can be used to connect the base unit to a 230V mains outlet. If that causes issues at installation problems, see "Troubleshooting" on page 7.

3

The optional AC charger can be used.

CHARGING

- 1. Red = maximum charge
- 2. Yellow = charging
- 3. Green = full charge

1. Only connect one charging cable.

2. Supply power from the socket to ensure the charger is in correct position. Red charge indicator light is on and the indicator starts charging and will go off completely when fully charged.

AC charging cable

When your computer is powered off, the USB cable will not charge and the indicator starts to blink red and becomes, during the daytime, AC indicator with which your device cannot charge.

USB charging cable

When your computer is powered on, the USB cable will charge the USB connector.

POSITIONING

The **recommended position** (shown in green line) is shown above. Incorrect positioning can cause heat and interference.
