How Divine Images Became Art Oleg Tarasov,2024-02-09 How Divine Images Became Art tells the story of the parallel discovery of Russian medieval art and of the Italian primitives at the beginning of the twentieth century While these two developments are well known they are usually studied in isolation Tarasov s study has the great merit of showing the connection between the art world in Russia and the West and its impact in the cultural history of the continent in the pre war

period Drawing on a profound familiarity with Russian sources some of which are little known to Western scholars and on equally expert knowledge of Western material and scholarship Oleg Tarasov presents a fresh perspective on early twentieth century Russian and Western art The author demonstrates that during the Belle poque the interest in medieval Russian icons and Italian primitives lead to the recognition of both as distinctive art forms conveying a powerful spiritual message Formalist art theory and its influence on art collecting played a major role in this recognition of aesthetic and moral value of primitive paintings and was instrumental in reshaping the perception of divine images as artworks Ultimately this monograph represents a significant contribution to our understanding of early twentieth century art it will be of interest to art scholars students and anyone interested in the spiritual and aesthetic revival of religious paintings in the Belle poque

Re-framing the Italian Renaissance at the National Gallery, 1824 - 2014 Harriet O'Neill (1980 - 2023), 2025-04-07 This pioneering study examines how Italian Renaissance painting has been physically and conceptually framed and re framed at the National Gallery London from its foundation in 1824 to the present day Harriet O'Neill's research focuses primarily on historic historicising and Neo Renaissance picture frames while considering the changing appearance of the physical gallery spaces as a wider conceptual frame Through six chapters the author identifies the varied roles frames and framing have played in mediating the entry of Italian Renaissance panels into the museum environment Chapter 1 situates the research within broader theoretical frameworks bringing together literature on frames with conceptualisations of museums decorative arts and museological constructions of the Renaissance Chapters 2 and 3 examine the motivations for re framing Renaissance panels under the Gallery's first Director Sir Charles Eastlake and his Keeper Ralph Nicholson Wornum exploring the connection between Neo Renaissance frames and visitor experience alongside art historical practice Chapter 4 analyses frames modelled on the portal ornament of the Venetian church of San Giobbe commissioned under the Gallery's third Director Sir Frederic Burton comparing them with the widely deployed Watts frames Chapter 5 discusses the collection and adaptation of antique frames contextualising this within international museological approaches pioneered in Berlin Chapter 6 charts the recent re framing of Italian Renaissance art at the National Gallery particularly in the Sainsbury Wing considering the types of narratives communicated to visitors through framing decisions This study reveals how re framing has transformed dislocated panels into both art historical specimens and works for aesthetic pleasure while engaging with the establishment of the Renaissance artistic canon and making controversial works more acceptable to English taste

The Capitalist and the Critic Charles Molesworth, 2016-03-01 A skillful and fascinating retelling of the often testy relationship between J.P. Morgan and Roger Fry two men who did more to establish the preeminence of the Metropolitan Museum of Art than any collector and curator before or since Shortly after the turn of the twentieth century the Metropolitan Museum of Art began an ambitious program of collection building and physical expansion that transformed it into one of the world's foremost museums an eminence that it has maintained ever since Two men of singular qualities and accomplishments played key roles in the Met's transformation J.P. Morgan America's leading financier and a prominent art collector and Roger Fry the headstrong English expert in art history who served as the Met's curator of painting Their complicated often contentious relationship embodies and illuminates the myriad tensions between commerce and art philanthropists and professional staff that a great museum must negotiate to define and fulfill its mission In this masterful multidisciplinary narrative Charles Molesworth offers the first in-depth look at how Morgan and Fry helped to mold the cultural legacy of masterpieces of painting and the development of the encyclopedic museum Structuring the book as a joint biography

Molesworth describes how Morgan used his vast wealth to bring European art to an American citizenry while Fry brought high standards of art history from the world of connoisseurs to a general public Their clashes over the purpose and functions of the Met which ultimately led to Fry's ouster reveal the forces personal and societal that helped to shape the Metropolitan Museum and other major American cultural institutions during the twentieth century
