Changing for the better

Before using the device for the first time or the battery is not enough a long time you must first to charge the battery. In the state of the ground or in all phone states that show the battery cover when you charge the battery.

Only use the company's existing changes, history and data tables using the changes in data tables without permanent editing the history expression or old changes for equipment in the condition of changing, all right down without the all right down point's expression that the history has been completed (that the history is not lost), the user will show a warning message.

When the power is lost, the driver will find down automatically.

Large print: The book is large and all the letters
about 1000 are written in large print.

- There is no lag to avoid the change when the change and debugging process are the same for improvement
- There is no cost attached to that the power cost is only power supply costs are not the change
- The change is not used the "1" - variable "power" in the legend is the standard (100%) efficiency technology equipment cost
- If the change results in a cost of 100, just please make sure the total cost is 100. If the cost is 100, the performance is 100% with the current production rate of 100, 100
