Writing and Thinking in Contemporary Academia Martin Grünfeld, 2019-06-19 Across disciplinary borders clarity is taken for granted as a cardinal virtue of communication in contemporary academia But what is clarity how is it practised in writing across disciplinary borders and how does it affect our ways of researching and thinking This book explores such questions by scrutinising the ideal of clarity beyond its apparently self evident value Through a multi methodological empirical analysis of the ideal of clarity the author offers a sketch of what is termed the poetics of clarity which is unfolded as a field of tension with important implications for sentence formation authorial positioning and textual organisation By way of a series of reflections on the possible consequences of this for thinking this volume also explores the parts of knowledge production that may be marginalised especially poetic language use biases interests and contexts multi dimensional arguments and errors Revealing a positivist bias and a regime of high speed consumption that characterise what in certain regards might be considered a productive space for knowledge production *Writing and Thinking in Contemporary Academia* will appeal to scholars with interests in the sociology of knowledge continental philosophy the philosophy of science and academic writing

Studies in Turkish as a Heritage Language Fatih Bayram, 2020-11-15 Heritage language bilingualism refers to contexts where a minority language spoken at home is one of the first native language s of an individual who grows up and typically becomes dominant in the societal majority language Heritage language bilinguals often wind up with grammatical systems that differ in interesting ways from dominant native speakers growing up where their heritage language is the majority one Understanding the trajectories and outcomes of heritage language bilingual grammatical competence performance language usage patterns identities and more related topics sits at the core of many research programs across a wide array of theoretical paradigms The study of heritage language bilingualism has grown exponentially over the past two decades This expansion in interest has seen in parallel extensions in methodologies applied bridges built between closely related fields such as the study of language contact and linguistic attrition As is typical in linguistics not all languages are studied to the same degree The present volume showcases what Turkish as a heritage language brings to bear for key questions in the study of heritage language bilingualism and beyond In many ways Turkish is an ideal language to be studied because of its large diaspora across the world in particular

Europe The papers in this volume are diverse from psycholinguistic to ethnographic to classroom based studies featuring Turkish as a heritage language Together they equal more than their subparts leading to the conclusion that understudied heritage languages like Turkish provide missing pieces to the puzzle of understanding the variables that give rise to the continuum of outcomes characteristic of heritage language speakers [Shark Research](#) Jeffrey C Carrier, Michael R.
