Halpern, 1995 On the Limits of the Law is Stephen Halpern s compelling examination of the legal struggle to control the enforcement of Title VI of the 1964 Civil Rights Act the historic provision prohibiting racial discrimination in programs receiving federal financial assistance Although the provision appeared to have immense power to fight racial inequality in education Halpern argues

attacking the problem through legal rights and litigation distorted our understanding of educational inequality based on race and limited the remedies used to address it Stephen Halpern has made a substantial and original contribution to the analysis of law and civil rights Concentrating on original or primary sources and including very informative interviews he offers a superb review of the historical and political context of the Civil Rights Act of 1964 and the United States Supreme Court s desegregation decisions All who are interested in civil rights history and enforcement the administrative process and the role of courts in pursuing racial and social justice will want to read this book Kenneth Tollett Howard University [The GLMA Handbook on LGBT Health](#) Jason S. [Technology-focused Acquisitions](#) Jan Paul Stein,2017-07-24 Technology focused acquisitions are an important complement to the firm s internal product development efforts There is considerable heterogeneity when comparing individual technology focused acquisitions especially with respect to acquisition timing and the deal value To resolve some of this heterogeneity the author introduces the novel distinction between performance and functionality focused acquisitions He characterizes this distinction based on a theoretical analysis a qualitative study and turns to a sample of acquisitions in the field of artificial intelligence for the quantitative study There are two key findings First performance focused acquisitions

take place earlier in a target's life cycle than functionality focused ones. Second, the deal value is at a comparable stage in a target's life cycle higher for performance focused acquisitions. This thesis is relevant for management scholars and managers alike. Scholars learn about the implications of the distinction between performance and functionality focused acquisitions on markets for technology. Managers gain insights into how this distinction may guide their strategic decision making.

Opportunity Commission United States Commission on Civil Rights, 2002 **Because of Race** Mica Pollock, 2010-10-25. In

Because of Race Mica Pollock tackles a long standing and fraught debate over racial inequalities in America's schools. Which denials of opportunity experienced by students of color should be remedied? Pollock exposes raw real time arguments over what inequalities of opportunity based on race in our schools look like today and what if anything various Americans should do about it. Pollock encountered these debates while working at the U.S. Department of Education's Office for Civil Rights in 1999-2001. For more than two years she listened to hundreds of parents, advocates, educators and federal employees talk about the educational treatment of children and youth in specific schools and districts. People debated how children were spoken to, disciplined and ignored in both segregated and desegregated districts and how children were afforded or denied basic resources and opportunities to learn. Pollock discusses four rebuttals that greeted demands for everyday justice for students of color inside schools and districts. She explores how debates over daily opportunity provision exposed conflicting analyses of opportunity denial and harm worth remedying. *Because of Race* lays bare our habits of argument and offers concrete suggestions for arguing more successfully toward equal opportunity.
