Diversifying Greek Tragedy on the Contemporary US Stage Melinda Powers, 2018-07-26 In its long history of performance and reception Greek drama has been interpreted and adapted in countless ways and forms in response to and as a reflection of the preoccupations and tensions of particular historical moments This volume continues this tradition by investigating a cross section of theatrical productions on the contemporary American stage that have reimagined Greek tragedy in order to address the political and social concerns of minority communities Studying performance and its role in creating and reflecting social cultural and historical identity in contemporary America it draws on cutting edge research in the field to move discussion away from the interpretation of dramatic texts in isolation from their performance context and towards an analysis of the dynamic experience of live theatre The discussion focuses particularly on the ability of engaged performances to pose critical challenges to the long standing stereotypes that have contributed to the misrepresentation and marginalization of minority cultures However in the process it also uncovers the ways in which such performances can inadvertently reinforce the very stereotypes they aim to execute demonstrating that ancient drama can be a powerful and dangerous tool in the search for social justice

Theater and Crisis Patrice D. Rankine, 2024-03-04 Demonstrates how myth literature and theater are part of and respond to public or political events

Medea's Long Shadow in Postcolonial Contexts Ana Filipa Prata, Rodrigo Verano, 2024-06-10 This interdisciplinary volume explores the ancient Greek myth of Medea and its global analogues found in other mythic and folk tales of deadly exiled women such as those of La Malinche and La Llorona examining the connections between these figures and their depictions from antiquity to modernity The book considers the figure of the foreign woman her exile fratricide and infanticide in its ancient Greek form and in global postcolonial receptions in a range of media including drama film novels and the visual arts The chapters illuminate the contradictions of considering the classical Medea as a central reference point for analysis of other female figures from peripheral territories while

simultaneously acknowledging the insights that such comparisons can yield Emphasizing the ways in which Medea's seditious nature enables the establishment of an extensive and heterogeneous intertextual network with other mythic characters who represent a similarly disruptive role in their specific local historical and cultural contexts the book argues for a comparative analysis that is equally attentive to myths and folk tales from all regions These essays by scholars of classics comparative and world literatures and postcolonial studies represent a plurality of perspectives from different academic contexts in Africa Latin America North America and Europe and examine how different cultures have depicted women foreigners crime and abjection The foundations of Greek myth and subsequently of the classical tradition itself are interrogated from a postcolonial perspective In tracing the portrayals of Medea and other mythic women through the overlapping features of different female characters and plots and intertwining local cultural and literary materials with broader debates this volume challenges Eurocentric narratives of power and cultural domination and works to decentralize the discussion of Medea from the exclusive domain of classical studies Medea's Long Shadow in Postcolonial Contexts will be of interest to students and scholars working on Greek tragedy and its reception as well as to those studying postcolonial and global approaches to literature culture and gender studies
