Welch,David M. Howard,John Nix,2019-04-04 Singing has been a characteristic behaviour of humanity across several millennia Chorus America 2009 estimated that 42 6 million adults and children regularly sing in one of 270 000 choruses in the US representing more than 1 5 households Similarly recent European based data suggest that more than 37 million adults take part in group singing The Oxford Handbook of Singing is a landmark text on this topic It is a comprehensive resource for anyone who wishes to know more about the pluralistic nature of singing In part the narrative adopts a lifespan approach pre cradle to senescence to illustrate that singing is a commonplace behaviour which is an essential characteristic of our humanity In the overall design of the Handbook the chapter contents have been clustered into eight main sections embracing fifty three chapters by seventy two authors drawn from across the world with each chapter illustrating and illuminating a particular aspect of singing Offering a multi disciplinary perspective embracing the arts and humanities physical social and clinical sciences the book will be valuable for a broad audience within those fields **The Fellowship of Song** Ginette Dunn,2015-12-22 Originally published in 1980 Song is perhaps the strongest form of traditional culture Its vigour and energy represent the power of the community from which it springs This book focuses on traditional singing in two small English villages It studies in detail an activity which goes to the core of the communal life in any village and demonstrates how song becomes the lifeblood of the traditions of rural life In many ways traditional singing is highly subversive because its practice is an affirmation of community and a denial of the fragmentation of modern society The songs sung those remembered the singers now dead whose lives are recalled each time an old favourite is performed all connect the present with the past The primary aesthetic concern within these singing traditions is that a man should sing whatever

the objective quality of his performance and a song should tell a good story The individual singer assumes a special role in performance since he becomes spokesman for a group and gives voice not only to personal but also to social concerns dynamics and emotions
