

The background of the image is a romantic landscape. In the foreground, there is a dense field of bright yellow flowers, possibly cornflowers, with green leaves. In the middle ground, there are rolling hills with a warm, orange-brown hue, suggesting a sunset or sunrise. The sky is filled with soft, white and grey clouds against a pale blue background.

I love thee with the breath, smiles,
tears, of all my life; and, if God choose,
I shall but love thee better after death.

Mimesis in a Cognitive Perspective Nicolae

Babuts, 2017-07-05 Mimesis is a critical and philosophical term going back to Aristotle It carries a wide range of meanings

including imitation representation mimicry the act of expression and the presentation of self In modern literary criticism mimesis has received renewed attention in the last two or three decades and been subject to wide ranging interpretations Nicolae Babuts looks at the concept of mimesis from a cognitive perspective He identifies two main strands the mimetic relation of art and poetry to the world defined in terms of reference to an external reality and the importance of memory in the making of plots or storytelling Babuts suggests that there is a material identity we cannot know beyond the limits of our senses and intellect and a symbolic or coded identity that is processed by memory All writers including Mallarme in his esoteric poetry Flaubert in his realist narratives and Mihai Eminescu the Romanian poet in his romantic poems rely on mimetic strategies to link the two identities the images in memory to the outside reality All order their narratives in accordance with the dynamics of memory Babuts describes this phenomenon with great insight showing how new traditions are formed

Early Relational Trauma and the Development of the Self Tomás Casado-Frankel,María Eugenia Herrero,2022-06-01 Through the attentive examination of a single case study this book weaves together the lived experiences of a clinician in training with those of their teenage patient as they collectively navigate and overcome the profound effects of early relational trauma on the development of the self By the care taken in their analysis the book s authors deepen readers understanding of attachment disorders and their clinical presentation whilst allowing for a uniquely human view of the interactions between patient and clinician Elegantly combining poetic prose with a clinical account this book invites readers to travel with the clinician to think and feel in tandem with his subjective experiences and to explore psychoanalytic and systems theory as a means to understand clinical relationships that are seldom written about with such vulnerability It is a story of determination and growth both moving and enlightening By giving form to the resilience of both patient and clinician their mutual strength through tears of change this book expounds the behavioral consequences and treatment of psychopathologies associated with early relational trauma In this way the book will prove essential for all psychoanalysts and psychotherapists working with traumatized children and adolescents
