Female Intimacies in Seventeenth-Century French Literature Marianne Legault, 2016-04-15 Examining literary discourses on female friendship and intimacy in seventeenth century France this study takes as its premise the view that unlike men women have been denied for centuries the possibility of same sex friendship The author explores the effect of this homosocial and homoprivileged heritage on the deployment and constructions of female friendship and homoerotic relationships as thematic narratives in works by male and female writers in seventeenth century France The book consists of three parts the first surveys the history of male thinkers denial of female friendship concluding with a synopsis of the cultural

representations of female same sex practices The second analyzes female intimacy and homoeroticism as imagined appropriated and finally repudiated by Honoré d'Urf's pastoral novel *L'Astrée* and Isaac de Benserade's seemingly lesbian friendly comedy *Iphis et Iante* The third turns to unprecedented depictions of female intimate and homoerotic bonds in Madeleine de Scudéry's novel *Mathilde* and Charlotte Rose de Caumont de La Force's fairy tale *Plus Belle que Fée* This study reveals a female literary genealogy of intimacies between women in seventeenth century France and adds to the research in lesbian and queer studies fields in which pre eighteenth century French literary texts are rare *Fairy Tales on the Teen Screen* Athena Bellas, 2017-10-10 This book examines how the fairy tale is currently being redeployed and revised on the contemporary teen screen The author redeploys Victor Turner's work on liminality for a feminist agenda providing a new and productive method for thinking about girlhood onscreen While many studies of teenagehood and teen film briefly invoke Turner's concept it remains an underdeveloped framework for thinking about youth onscreen The book's broad scope across teen media including film television and online media contributes to the need for contemporary analysis and theorisation of our multimedia cultural climate *Adult Children of Divorce* Geraldine K. Piorkowski, 2008-10-30 Romantic love is often an elusive fragile and tenuous state difficult to maintain across time The rates of divorce redivorce relationship violence and abuse today attest to the fact we are failing at romantic love And for teen aged and adult children of divorce romantic love can be especially elusive Because they have no roadmap for a satisfying stable romantic relationship derived from their own parents they are confused by what love is and tend to make poor partner choices Borrowing heavily from popular culture for unrealistic standards regarding love they become disillusioned when their all too ordinary lovers don't measure up Especially vulnerable to the problems their parents had they tend to overreact in a similar negative fashion and are all too ready to consider divorce when unhappiness strikes In attempting to halt intergenerational transmission of divorce Psychologist Piorkowski points to how we can recognize that American popular culture presents an overly sexualized explosive and superficial version of love that can't last With this book adult children of divorce can begin to see how they have been affected by familial experiences and develop a new realistic map to find more fulfilling and enduring romantic relationships Piorkowski in an extensive review of literature also looks at cultural factors and how they impact romantic love and marriage In contrast to American popular culture's shallow rendition of romantic love many cultures elsewhere in the world emphasize compatibility religion and family allegiance As a result says the author such marriages appear more stable than American unions built upon the shifting sands of emotion
