endeavors Certainly nobody wants to do something for nothing There is always that something we hopefully want in return for an effort and sacrifice The life and blood of motivation is reward It is that thing that inspires us and entices us to take necessary action The reward can come in different kinds such as material rewards recognition and personal satisfaction or gratification The reward is regarded as the end of every means Motivation in itself is fueled by ambition and desire The strength of motivation largely relies on the clearness of the mental picture of the goal or the reward as well as the intensity of the desire to achieve it No matter how great attractive beneficial or enticing a certain reward may be if the person has no ambition or no desire to have it motivation will also be absent There may also be instances where you may have the desire to take action or to achieve something but if that desire is not strong enough no work will ever get done and achievement will only be just a wish on a star
