The Man in the Empty Suit Tom Walker, In this dystopian novel set in the 2030s a man suffering from a gunshot wound is trying to remember what happened to him in the years since Trump got elected Fimple is an alcoholic psychological counselor suffering from post traumatic amnesia As he recovers in the hospital he tries to reconstruct his past but can't recognize the America his country has become As his memory slowly returns he realizes the hospital is owned by his half uncle a Trump like corporatist who wants to run for president and has hired Fimple to babysit three sexually addicted young people to keep them out of the news This is necessary because a sex scandal in the evangelical right wing post Trump era could weaken his run for president But in counseling the three young addicts locked up in a halfway house Fimple comes to love them When they beg him to set them free he is tempted Fimple can't afford to lose his job but feels morally obligated to aid in their escape What should he do While Walker's prose is never flashy his careful grounding of details and patient efforts in constructing character and setting create a universe of flaws and possibilities and his stories unfold with a cumulative occasionally wrenching emotional effect Kirkus review of Tom Walker's book Signed Confessions 2013

Screwing the System and Making it Work Mark D. Jacobs,1993-10 Who is responsible for juvenile delinquency Mark D Jacobs uses ethnographic statistical and literary methods to uncover the many levels of disorganization in American juvenile justice By analyzing the continuities between normal casework and exceptional cases he reveals that probation officers must commonly contrive informal measures to circumvent a system which routinely obstructs the delivery of services to their clients Jacobs defines the concept of the no fault society to describe the larger context of societal disorder and interpersonal manipulation that the juvenile justice system at once reflects and exacerbates

Federal Probation ,1986 Unarmed and Dangerous Jon Shane,Zoë Swenson,2018-07-17 There is tremendous controversy across the United States and beyond when a police officer

uses deadly force against an unarmed citizen but often the conversation is devoid of contextual details. These details matter greatly as a matter of law and organizational legitimacy. In this short book authors Jon Shane and Zo Swenson offer a comprehensive analysis of the first study to use publicly available data to reveal the context in which an officer used deadly force against an unarmed citizen. Although any police shooting, even a justified shooting, is not a desired outcome, often termed lawful but awful in policing circles, it is not necessarily a crime. The results of this study lend support to the notion that being unarmed does not mean not dangerous in some ways, explaining why most police officers are not indicted when such a shooting occurs. The study's findings show that when police officers used deadly force during an encounter with an unarmed citizen, the officer or a third person was facing imminent threat of death or serious injury in the vast majority of situations. Moreover, when police officers used force, their actions were almost always consistent with the accepted legal and policy principles that govern law enforcement in the overwhelming proportion of encounters as measured by indictments. Noting the dearth of official data on the context of police shooting fatalities, Shane and Swenson call for the U.S. government to compile comprehensive data so researchers and practitioners can learn from deadly force encounters and improve practices. They further recommend that future research on police shootings should examine the patterns and micro interactions between the officer, citizen, and environment in relation to the prevailing law. The unique data and analysis in this book will inform discussions of police use of force for researchers, policymakers, and students involved in criminal justice, public policy, and policing.

Reggio Emilia Encounters Pat Wharton, Linda Kinney, 2015-01-09. The documentation of young children's learning plays a vital role in the pre-schools of Reggio Emilia. This leading edge approach to bringing record keeping and assessment into the heart of young children's learning is envied and emulated by educators around the world. This inspiring book is based upon a documentary approach successfully implemented by Stirling Council in Scotland, whose pre-school educators experienced dramatic improvements in their understandings about young children, how they learn, and the potential unleashed in successfully engaging families in the learning process. This approach, which is based on careful listening to children and observation of their interests and concerns, centres around recording and commenting on children's learning through photos, wall displays, videos, and a variety of different media. This follow-up text is an accessible and lively companion to the *An Encounter with Reggio Emilia: Children's Early Learning Made Visible*. It will encourage the reader to develop a deeper understanding of the approach and will show how the authors have seen a complete paradigm shift for those already working with documentation as a result of the guidance laid out in their previous book. Drawing on the experiences of practitioners and collaborators, the authors offer a framework from which any early years educator can easily adapt and develop in their own educational setting.
