Proficiency in Second Language Speech Production Simon Williams,2023-01-01 This book explores the concept of disfluency
 in speech production particularly as it occurs in the context of second language acquisition Drawing on examples from
 learner speech at three levels beginner intermediate and advanced the author argues that acquiring target language norms
 for performing disfluency is essential to an individual being recognized as fluent in a language by fellow speakers Starting
 with a survey of the psycholinguistic research in this area he then applies a sociolinguistic lens to examine how a learner's
 social and educational background impacts the types of disfluencies in their speech This book will be of interest to readers in
 fields such as applied linguistics and second language acquisition psychology and education *The Official Guide to PTE*
