Free Learning Ross Parker, David Coniam, Peter Falvey, 2021-11-29 This edited volume explores investigates and analyses Free Learning an innovative approach to student directed learning which seeks to challenge educational norms from within The volume is framed by a recognition of the urgent need for transformation of our educational systems In traditional education students work through a teacher directed linear syllabus at a pace dictated by the teacher with summative assessment hurdles at too frequent intervals Progression and direction are determined solely by the teacher In Free Learning students determine their own learning pathway through a non linear syllabus which can be visualised as a mind map Students may then complete as many units as they either have time for or are interested in moving from one unit to another on the basis of having formatively satisfied the demands of each individual unit This volume

showcases the value and potential of Free Learning in contemporary practice and is intended to bridge theory and practice. The structure of the book reflects this complementary fit with contributions from practitioners describing Free Learning as a learning and teaching tool in a range of educational settings, subjects and age ranges. It also contains qualitative and quantitative analyses by researchers exploring the uptake of Free Learning and students' responses to the methodology. Researchers and educators who are interested in student-directed methodologies, especially in Asia, will find that the practical accounts and analyses of Free Learning contained within provide much food for thought with regard to redefining student learning.

Debates in History Teaching Ian Davies, 2017-02-16. Now in its second edition, *Debates in History Teaching* remains at the cutting edge of history education. It has been fully updated to take into account the latest developments in policy research and professional practice. With further exploration into the major issues that history teachers encounter in their daily professional lives, it provides fresh guidance for thinking and practice for teachers within the UK and beyond. Written by a range of experts in history education, chapters cover all the key issues needed for clear thinking and excellent professional action. This book will enable you to reach informed judgements and argue your point of view with deeper theoretical knowledge and understanding. Debates include: What is happening today in history education? What is the purpose of history teaching? What do history teachers need to know? What are the key trends and issues in international contexts? What is the role of evidence in history teaching and learning? How should you make use of ICT in your lessons? Should moral learning be an aim of history education? How should history learning be assessed? *Debates in History Teaching* remains essential reading for any student or practising teacher engaged in initial training, continuing professional development or Master's level study.

Ghost industries Irene Curulli, 2018-08-03. What is the role of water in the conversion of former industrial areas? How is water used in engaging the public to experience these sites both as physical and cultural places? Can ecological design foster the coexistence of industry and environment? The book addresses these core questions by examining the impact of the former Oregonian industry 1830-1940 on the Willamette River landscape and discussing how projects of transformation interpret the triangular interplay among industry, landscape and water. This book is a source of suggestions and ideas for scholars, students and professionals in architecture, landscape architecture, planning and their related fields who want to manage the urban landscapes successfully.

The Routledge Handbook of English Language and Digital Humanities Svenja Adolphs, Dawn Knight, 2020-04-16. The *Routledge Handbook of English Language and Digital Humanities* serves as a reference point for key developments related to the ways in which the digital turn has shaped the study of the English language and of how the resulting methodological approaches have permeated other disciplines. It draws on modern linguistics and discourse analysis for its analytical methods and applies these approaches to the exploration and theorisation of issues within the humanities. Divided into three sections, this handbook covers sources and corpora, analytical approaches, English language at the interface with other areas of research in the digital humanities. In covering these areas more

traditional approaches and methodologies in the humanities are recast and research challenges are re framed through the lens of the digital The essays in this volume highlight the opportunities for new questions to be asked and long standing questions to be reconsidered when drawing on the digital in humanities research This is a ground breaking collection of essays offering incisive and essential reading for anyone with an interest in the English language and digital humanities

Ocr Psychology Philip Banyard, Cara Flanagan, 2006-06-29 Endorsed by OCR for use with the OCR AS GCE Psychology specification. OCR Psychology AS Core Studies prepares students for all elements of the OCR AS exam. All of the twenty core research papers are covered and explanations of why and how the studies were carried out are included. The text also explores the conclusions that can be drawn and looks at what happened next. Students are encouraged to make links from the historical studies to everyday issues and contemporary events and to raise questions that challenge our understanding of people in the modern world. The book mirrors the design of the course both in its exploration of research studies and in its sections on key issues and debates in psychology which can be used for evaluation. Material is provided for all three AS papers including the practical component of the course. Specifically it covers The core studies an abstract of each plus ample details of aims, method, results and conclusions. Guidance is given on how each study can be evaluated and short answer questions, practical activities, discussion ideas, multiple choice questions and past exam questions are provided. The background to each core study, information about related research and biographical details of the researcher's provide a context that makes the studies more understandable. Key issues 20 issues and debates are discussed in detail to prepare students for the long answer questions. A research methods chapter guides students in conducting and reporting the four activities for their practical investigations folder. It also provides suggestions for the activities and practice exam questions. Exam guidance each chapter ends with a selection of short and long answer exam questions with answers by students and examiner's comments. The whole book is presented in magazine style spreads to aid the learning process. It is written in a style accessible to all students whilst also providing some challenging material for the more confident student. Key features of the book include Starters and Afters to place the study in context. Questions and Activities and Debates related to each core study to offer students the opportunity to really engage with the material. Evaluation suggestions for each core study. Multiple choice questions. A bank of past exam questions. Key issues covered in depth to promote greater understanding. Summaries of core studies in the form of mini mind maps to provide helpful revision cues to candidates. Student answers to exam questions with examiner's comments. This book will be an invaluable resource for all students and teachers following the OCR AS course. OCR Psychology AS Core Studies is accompanied by a free website of supplementary resource material. It contains suggested answers to all exam questions, study questions, evaluation points and core study questions in the book as well as extra exam and study questions and answers. These resources are under development and will be available at the beginning of September 2006.
