Shprintzen, 2013 Vegetarian Crusade The Rise of an American Reform Movement 1817 1921 **A Sermon Preached at the Octagon Chapel in Norwich, August, the Thirtieth, 1801** Pendlebury Houghton, 1801 **A Home for All** Orson Squire Fowler, 1887 *The Octagon House* Orson Squire Fowler, 1973 The Shape of Utopia Irene Cheng, 2023-08-01 How nineteenth century social reformers devised a new set of radical blueprints for society In the middle of the nineteenth century a utopian impulse flourished in the United States through the circulation of architectural and urban plans predicated on geometrically distinct designs Though the majority of such plans remained unrealized The Shape of Utopia emphasizes the enduring importance of these radical propositions and their ability to visualize alternatives to what was then a newly emerging capitalist nation Drawing diagrammatic plans for structures such as octagonal houses a hexagonal anarchist city and circular centers of equitable commerce these various architectural utopians applied geometric forms to envision a more just and harmonious society Highlighting the inherent political capacity of architecture Irene Cheng showcases how these visionary planners used their blueprints as persuasive visual rhetoric that could mobilize others to share in their aspirations for a better world Offering an extensive and uniquely focused view of mid nineteenth century America s rapidly changing cultural landscape this book examines these utopian

plans within the context of significant economic and technological transformation encompassing movements such as phrenology anarchism and spiritualism Engaging equally with architectural history visual culture studies and U S history *The Shape of Utopia* documents a pivotal moment in American history when ordinary people ardently believed in the potential to reshape society

Architectural Energetics in Archaeology Leah McCurdy, Elliot M. Abrams, 2019-01-25 Archaeologists and the public at large have long been fascinated by monumental architecture built by past societies Whether considering the earthworks in the Ohio Valley or the grandest pyramids in Egypt and Mexico people have been curious as to how pre modern societies with limited technology were capable of constructing monuments of such outstanding scale and quality Architectural energetics is a methodology within archaeology that generates estimates of the amount of labor and time allocated to construct these past monuments This methodology allows for detailed analyses of architecture and especially the analysis of the social power underlying such projects Architectural Energetics in Archaeology assembles an international array of scholars who have analyzed architecture from archaeological and historic societies using architectural energetics It is the first such volume of its kind In addition to applying architectural energetics to a global range of architectural works it outlines in detail the estimates of costs that can be used in future architectural analyses This volume will serve archaeology and classics researchers and lecturers teaching undergraduate and graduate courses related to social power and architecture It also will interest architects examining past construction and engineering projects
