Superior OEC Super Flow image

OEC MTS Site image from OEC MTS mobile

Superb image quality and a wide range of clinical subject and vascular applications, the OEC MTS site is an ideal system for the OEC MTS C-arm imaging of interventional settings.

OEC's latest digital mobile C-arm technology uses the patented "no image" or Motion Freeport Superflow technique that allows the user to perform OEC Superflow interventional angiographic imaging while moving the C-arm in systems. This allows more imaging coupled with our unique Motion Freeport technology where mobile imaging is now possible with improved productivity. Achieve the same benefits of Superflow without all the fuss.

OEC's advanced image processing performs faster than the most techniques and applies specific processing algorithms to effectively "denoise" the image and give you what you need with efficiency when you need it.

The patented OEC technology processes each imaging profile uniquely to highlight the anatomy of interest. Flow and resolution are processed separately to achieve optimum definition according to the desired profile.

The complete image quality and volume structure is only truly achieved by the unique imaging profile for a specific application. Simple. Certain. Proven.

Vas MTS... Breakthrough technology for improved vascular productivity.
