Barton Collection,José Francisco Carret,1888 The Travel Writings of John Moore Vol 1 Ben P Robertson,2024-08-01 John Moore was a Scottish physician who travelled extensively and wrote immensely popular accounts of these which brought him international fame Despite this his travel writings have not been available since 1820 This collection will be the first in almost two centuries to present his Travel Writings to historians and literary scholars God and Government in an 'Age of Reason' David Nicholls,2003-08-29 In this companion volume to Deity and Domination David Nicholls broadens his examination of the relationship between religion and politics Focusing on the images and concepts of God and the state predominant in eighteenth century discourse he shows how these were interrelated and reflect the language of the wider cultural contexts Nicholls argues that the way a community pictures God will inevitably reflect and also affect its general understanding of authority whether it be in state in family or in other social institutions Much language

about God for example has a primarily political reference in psalms hymns and sermons God is called king judge lord ruler and to him are ascribed might majesty dominion power and sovereignty But if political rhetoric is frequently incorporated into religious discourse the reverse is also true many key concepts of modern political theory are secularised theological concepts In his consideration of this important and neglected relationship Nicholls sheds new light on religion and politics in the eighteenth century
