Of Natural And Supernatural Things:

Of Natural and Supernatural Things Basilius Valentinus, 2019-11-22 In Of Natural and Supernatural Things Basilius Valentinus intricately weaves a tapestry of alchemical wisdom that reflects the Renaissance's thirst for knowledge transcending the natural world. The text is laden with a rich blend of allegorical writing and practical instruction, demonstrating a meticulous examination of both natural phenomena and the metaphysical, thereby revealing the interconnectedness of the material and spiritual realms. Valentinus employs a didactic tone infused with esoteric terminology and symbolic imagery, forming a compelling dialogue between the reader and the ancient wisdom he seeks to revive amidst the evolving scientific landscape of his time. Basilius Valentinus, often shrouded in historical ambiguity, is believed to have been a German alchemist and philosopher whose works encapsulate the essence of Renaissance humanism and the revival of classical texts. His deep engagement with the alchemical tradition, as well as his possible connections with significant figures such as Paracelsus, likely influenced his exploration of the dualities of existence, culminating in this seminal work that seeks to illuminate the path to both corporeal and spiritual transformation. For readers drawn to the mystical realms of alchemy and the philosophical inquiries of the Renaissance, Of Natural and Supernatural Things is an indispensable exploration. It invites contemplation of the profound relationship between humanity and the cosmos, encouraging seekers of wisdom to delve into the hidden truths that lie beneath the surface of reality.

Of Natural and Supernatural Things Basilius Valentinus, 2015-03-31 Because I have at this present undertaken to write of the of the first Tincture the Root of Metals and Minerals and to inform you of the Spiritual Essence how the Metals and Minerals are at first spiritually conceived and born corporally it will be necessary first of all to utter and to acquaint you by a speech that all things consist of two parts that is Natural and Supernatural what is visible tangible and hath form or shape that is natural but what is intangible without form and spiritual that is supernatural and must be apprehended and conceived by Faith such is the Creation and especially the Eternity of God without end immensurable and incomprehensible for Nature cannot conceive nor apprehend it by its humane reason. This is supernatural what Reason cannot apprehend but must be conceived by Faith this is a Divine matter and belongs to Theology which judgeth Souls. Moreover there appertains to supernatural things the Angels of the Lord having clarified Bodies doing that by the permission of their Creator which is impossible for any other Creature to do their Works being concealed from the Eyes of the World and so likewise are the Works of the Infernal Spirits and Devils unknown which they do by the permission of the most High God. But above all the great Works of God are found and acknowledged to be supernatural not to be scanned and comprehended by Humane Imaginations such is in especial the great Grace and Mercy of God which he bestows upon Mankind out of his great Love which indeed no man can apprehend or know and other great and wonderful works which he hath manifested divers manner of ways by Christ our Saviour and Redeemer for the confirmation of his Omnipotence and Glory.
