The Anthropology of Love and Anger Joanna Overing, Alan Passes, 2002-01-04 The Anthropology of Love and Anger questions the very foundations of western sociological thought In their examination of indigenous peoples from across the South American continent the contributors to this volume have come to realise that western thought does not possess the vocabulary to define even the fundamentals of indigenous thought and practice The dualisms of public and private political and domestic individual and collective even male and female in which western anthropology was founded cannot legitimately be applied to peoples whose sociality is based on an aesthetics of community For indigenous people success is measured by the extent to which conviviality all that is peaceful harmonious and sociable has been attained Yet conviviality is not just reliant on love and good but instead on an even balance between all that is constructive love and all that is destructive anger With case studies from across the South American region ranging from the so called fierce Yanomami of Venezuela and Brazil to the Enxet of Paraguay and with discussions on topics from the efficacy of laughter the role of language anger as a marker of love and even homesickness The Anthropology of Love and Anger is a seminal fascinating work which should be read by all students and academics in the post colonial world *Catalog of Copyright Entries, Third Series*, 1950 The record of each copyright registration listed in the Catalog includes a description of the work copyrighted and data relating to the copyright claim the name of the copyright claimant as given in the application for registration the copyright date the copyright registration number etc **Catalog of Copyright Entries** Library of Congress. The Fellowship of the Beatific Vision Norm Klassen, 2016-11-09 In *The Canterbury Tales* Geoffrey Chaucer asks a basic human question How do we overcome tyranny His answer goes to the heart of a revolutionary way of thinking about the very end of human existence and the nature of created being His answer declared performatively over the course of a symbolic pilgrimage urges the view that humanity has an intrinsic need of grace in order to be itself In portraying this outlook Chaucer contributes to what has been called the palaeo Christian understanding of creaturely freedom Paradoxically genuine freedom grows out of the dependency of all things upon God In imaginatively inhabiting this view of reality Chaucer aligns himself with that other great poet theologian of the Middle Ages Dante Both are true Christian humanists They recognize in art a fragile opportunity not to reduce reality to a set of dogmatic propositions but to participate in an ever deepening mystery Chaucer effectively calls all would be members of the pilgrim fellowship that is the church to behave as artists interpretively responding to God in the finitude of their existence together

Shakespeare's Apprenticeship Ramon Jiménez, 2018-09-14

The contents of the Shakespeare canon have come into question in recent years as scholars add plays or declare others only partially his work Now new literary and historical evidence demonstrates that five heretofore anonymous plays published or performed during his lifetime are actually his first versions of later canonical works Three histories *The Famous Victories of Henry the Fifth* *The True Tragedy of Richard the Third* and *The Troublesome Reign of John* a comedy *The Taming of a Shrew* and a romance *King Leir* are products of Shakespeare's juvenile years Later in his career he transformed them into the plays that bear nearly identical titles Each is strikingly similar to its canonical counterpart in terms of structure plot and cast though the texts were entirely rewritten Virtually all scholars critics and editors of Shakespeare have overlooked or disputed the idea that he had anything to do with them This addition of five plays to the Shakespeare canon introduces a new facet to the authorship debate and supplies further evidence that the real Shakespeare was Edward de Vere seventeenth Earl of Oxford
