Offshore Structure Fatigue Analysis Design Sacs Manual:

Offshore Structures Mohamed A. El-Reedy, 2012-08-21 With most of the easy gas and oil reserves discovered and prices rebounding companies are now drilling far offshore in extreme weather condition environments As deepwater wells are drilled to greater depths engineers and designers are confronted with new problems such as water depth weather conditions ocean currents equipment reliability and well accessibility Offshore Structure Design Construction and Maintenance covers all types of offshore structures and platforms employed worldwide The ultimate reference for selecting operating and maintaining offshore structures this book provides a road map for designing structures which will stand up even in the harshest environments The selection of the proper type of offshore structure is discussed from a technical and economic point of view The design procedure for the fixed offshore structure will be presented and how to review the design to reach the optimum solution Nonlinear analysis Push over analysis will be presented as a new technique to design and assess the existing structure Pile design and tubular joint with the effect of fatigue loading will be presented also from a theoretical and a practical point of view With this book in hand engineers receive the most up to date methods for performing a structural life cycle analysis implement maintenance plans for topsides and jackets using non destructive testing Under water inspection is discussed for hundreds of platforms in detail Advanced repair methodology for scour marine growth and damaged or deteriorating members are discussed Risk based under water inspection techniques are covered from a practical pint of view In addition the book will be supported by an online modeling and simulation program with will allow designers to save time and money by verifying assumptions online One stop guide to offshore structure design and analysis Easy to understand methods for structural life cycle analysis Expert advice for designing offshore platforms for all types of environments Save time and money by verifying designs online

Marine Structural Design Calculations Mohamed A. El-Reedy, 2014-09-30 The perfect guide for veteran structural engineers or for engineers just entering the field of offshore design and construction Marine Structural Design Calculations offers structural and geotechnical engineers a multitude of worked out marine structural construction and design calculations Each calculation is discussed in a concise easy to understand manner that provides an authoritative guide for selecting the right formula and solving even the most difficult design calculation Calculation methods for all areas of marine structural design and construction are presented and practical solutions are provided Theories principles and practices are summarized The concentration focuses on formula selection and problem solving A quick look up guide Marine Structural Design Calculations includes both fps and SI units and is divided into categories such as Project Management for Marine Structures Marine Structures Loads and Strength Marine Structure Platform Design and Geotechnical Data and Pile Design The calculations are based on industry code and standards like American Society of Civil Engineers and American Society of Mechanical Engineers as well as institutions like the American Petroleum Institute and the US Coast Guard Case studies and worked examples are included throughout the book

Calculations are based on industry code and standards such as American Society of Civil Engineers and American Society of Mechanical Engineers Complete chapter on modeling using SACS software and PDMS software Includes over 300 marine structural construction and design calculations Worked out examples and case studies are provided throughout the book Includes a number of checklists design schematics and data tables Transactions - The Society of Naval Architects and Marine Engineers Society of Naval Architects and Marine Engineers (U.S.),1893 List of members in vols 1 24 38 54 57
