Ogun State College Of Health Technology Ilese:

Reimagining Nigeria's Educational System Joseph A. Balogun, 2023-09-20 This book assesses the challenges within the Nigerian educational system and provides a concrete plan to revitalize the low performing system by strengthening high stakes testing at all levels In Nigeria many citizens believe that the solution to the country's low performance in education is to eliminate high stakes standardized testing High stakes testing refers to applying standardized student achievement tests as a primary mechanism to evaluate students teachers and their school's performance This book argues that the poor quality of education and low ranking of Nigeria's educational system is not related to the negative consequences of high stakes testing but rather is due to many intrinsic factors By conducting a comparative analysis of six high performing education systems worldwide the book offers a comparative summative evaluation of the educational system and offers recommendations This book will be of interest to policymakers and scholars in the fields of African education higher education quality and global studies African studies management and administration leadership and professional development studies Joseph Abiodun Balogun is former Dean and retired Distinguished University Professor at the College of Health Sciences Chicago State University USA Visiting Professor Program Consultant at the Centre of Excellence in Reproductive Health Innovation University of Benin Nigeria and President CEO Joseph Rehabilitation Center Tinley Park Illinois USA Man, Technological Advancement and Sustainable Environment, 2011 **Estimates** Ogun State (Nigeria), 2009 **Approved Estimates** Ogun State (Nigeria), 2009 Ogun State Budget Ogun State (Nigeria), 1988

Nigeria Adebayo Adedeji, African Centre for Development and Strategic Studies (Ijebu-Ode, Nigeria), 1997 Successive Nigerian administrations economic record has been so lamentable in meeting people's basic needs that many ordinary Nigerians have taken matters into their own hands and got down to the work of local development themselves largely bypassing government in the process As this book shows whatever hope there is for a better future rests with the courageous efforts of ordinary people in their communities Apart from throwing light on this important but little known dimension of Nigerian life this book also raises a number of fundamental questions What chance has popular participation in a conflict

ridden and divided society And what relationship is there between popular participation democracy and development
